SELECTMEN'S REPORT.

WAYLAND, Feb. 28, 1902.

The Selectmen organized by the election of A. F. Parmenter, chairman, and the town clerk as clerk to the board at a salary of fifty dollars for the year. In appointing a clerk other than a member of the board, we believe we have acted for the interest of the town financially and otherwise. Financially, because the sum paid ($50) will be found to be less than has been, and must necessarily be paid for assistance to the board each year; otherwise, because the town clerk is the intermediary between the state and the town, and between the town and the various boards of town officers. So, too, there is scarcely a meeting of the Selectmen when something is not required in the way of information from the Town Clerk.

We have made the following appointments as required by law:

ENGINEERS OF FIRE DEPARTMENT, Edwin W. Marston, Arthur J. Ricker, William L. King.

INSPECTOR OF ANIMALS. Thomas Bryant, V. S.

REGISTRAR OF VOTERS. James H. Carroll, three years.

AUCTIONEERS. George E. Sherman, Jacob Reeves and Alfred A. Carter.

PUBLIC WEIGHERS. George B. Howe, Lorenzo K. Lovell, Albert L. Adams.

FISH AND GAME WARDEN. John J. Erwin.

BURIAL AGENT FOR INDIGENT SOLDIERS. Charles H. May.

Election Officers. Precinct I. Warden, E. F. Lee; clerk, M. W. Hynes; inspectors, William Stearns, Howard W. Parmenter, T. Weld Frost, James I. Bryden.

Precinct II. Warden, E. E. Butler; clerk, Ernest F. Lawrence; inspectors, Fred A. Carter, A. Clifford Bryant, Daniel D. Griffin, Dolor Cormier and Daniel Ricker.

Janitor of Hall. John E. Linnehan.

Police Officers Frank X. Lupien, John B. McManus, James Linnehan. These officers are paid by the state.

Police Officers. John E. Linnehan, Michael W. Hynes, Leslie E. A. Smith, Alvin B. Neal, (P. D. Gorman and Orlando C. Ewing for the third, fourth and fifth of July.) Leander N. Caswell, Orlando C. Ewing, reappointed and assigned to street duty Nov. 2, 1901.

Sealer of Weights and Measures. Daniel W. Ricker, resigned December 7, and Daniel Brackett was appointed to fill vacancy.

Acting under a vote of the town we have leased the rooms in the town hall formerly occupied by the public library to Rev. Joseph N. Jacques for the term of five years at a rental of seventy-eight dollars per annum payable semi-annually.

We granted two sixth-class licenses to sell intoxicating liquors, also three pool licenses.

By advice of Counsel P. H. Cooney Esq. we settled the case of Lupien vs. Town by paying plaintiff five hundred dollars in full of all damages and costs

Baldwin's bridge has been rebuilt with stone in a substantial manner under the supervision of the county commissioners, at a cost to the town of four hundred and thirty-one and 2-100 dollars, being one third of whole cost.

The overdraft in Incidentals was caused by the unexpected expenditure of five hundred dollars for Lupien case and five

hundred and sixty dollars premium for insurance on public buildings.

ALBION F. PARMENTER,
ELBRIDGE A. CARTER,
FRANK X. LUPIEN.
Selectmen.

REPORT OF TOWN CLERK.

WAYLAND, January 1, 1902

Wayland, Feb. 28, 1902.

REPORT OF THE BOARD OF HEALTH FOR 1901-1902.

Contagious Diseases Reported.

The Wayland Board of Health respectfully submit the following report:

Scarlet Fever	6
Diphtheria	2
Varioloid	1
Total	9

Licenses Granted.

Undertakers	2

The Board feel that the healthful condition of the town is largely due to the hearty co-operation received from the citizens in carrying out the various health laws.

The conditions which create malaria have received special attention. This disease will be further abated when the Metropolitan Water Board have finished dredging the Meadow basin of Lake Cochituate.

The State Board of Health have recommended to the General Court that the Saxonville Mills be enjoined to discontinue emptying their waste and sewage into the Sudbury River and their recommendation, if followed, will be beneficial to the health of the people in the Central part of the town.

Although many improvements have been made we yet feel that attention should be called to the condition of "Granny Moore's Pond Hole" on Pond street. This place seems to be a natural receptacle for all the surface drainage of the adjoining

neighborhood and is used as such. It also absorbs the overflow of several cess-pools. This we are endeavoring to prevent and will use every available means, considering our limited circumstances, for as this pond has no outlet the sediment must remain, rendering it very impure. We recommend that the town take action in regard to this matter.

The question in regard to the piggeries in North Wayland has been amicably settled and in the opinion of the board, the owners have taken all possible precaution to commit no nuisance and have provided cleaner quarters than the average cow barn for their stock.

WILLARD C. HUNTING, Chairman.
THOMAS BRYANT.
CHARLES F. WHITTIER, Clerk.

REPORT OF TRUSTEES OF PUBLIC LIBRARY.

The most important work accomplished by the Board of Library Trustees during the past year has been the classification of the library in accordance with the Dewey system.

With its more than thirteen thousand volumes, the library has got far beyond the control of any librarian under the plan that had been in vogue for half a century. What was needed was system and classification.

Miss E. Louise Jones of Waltham, a graduate of the Amherst Library school, was secured, and with the aid of two assistants commenced work the first of July, completing the classification and recataloguing November first, with the exception of the duplicate catalogue for Cochituate which was finished the middle of January. The result is most satisfactory, and the usefulness and convenience of the library has been more than doubled. Every book has its place, and there is a place in waiting, as it were, for every book that may be added in the years to come.

In the Librarian's report is a brief explanation of the system as well as the new method of delivery of books which is so arranged that the book takers as well as the librarian has a record of when the book was taken out and when it is due, and there is now no chance of levying fines through error. It also enables the librarian to know at all times where the books are, which was impossible under the old plan. In the past many books have been lost that it was impossible to trace.

The additional expense incurred in carrying out the classification was met by donations of a few public spirited citizens and friends of the library to whom the town should be duly grateful.

July first, Mrs. Sarah E. Heard, who had served as librarian with conscientious fidelity since April 1, 1885, an appreciation of whose long and devoted services the trustees have spread on their records, was succeeded by Miss Mabel T. Staples (now Mrs. Everett Small) who was unanimously elected by the Trustees, after the consideration of several applications. As she could not enter into the duties of the office immediately, with the approval of the Trustees, she obtained Miss Sarah Lovell as a substitute who efficiently fulfilled her duties, to the satisfaction of the board and the patrons of the library.

Mrs. Small assumed charge August 24. Having graduated from the Liberal Arts college at Boston University and having an experience of several years as teacher in the High school of our town, and being peculiarly fitted by temperament for such a position, she has adapted herself to the office most satisfactorily. The reforms she has inaugurated have met with the hearty approval of the board and proven most helpful and pleasing to the patrons of the library

July first also commenced the opening of the library on Wednesday evening, so that it is now open to the public Wednesdays and Saturdays from three till five in the afternoon, and from six thirty until nine in the evening, except holidays. The wisdom of the change has been fully demonstrated, and additional open hours will follow as soon as the town will sanction, by furnishing the necessary means to defray the additional expense.

During the year the friends of the library have shown in many ways their deep interest in its welfare. Mrs. Warren G. Roby has made many donations including an excellent oil portrait of the late Warren Gould Roby as well as wall and mantel

clocks, bronze busts and many volumes from the private library of the late Mr. Roby. The Misses Loring and Mr. Wallace Draper have donated many volumes and current magazines. Besides these there are friends whom it is not our privilege to name.

With the funds at our disposal and the work that we have been obliged to perform we have not been able to procure as many books as usual, only obtaining such current literature and absolute essentials as we felt must be supplied. We are still wofully in need of up-to-date books of reference and what may be termed "semi-technical" works. Rapid strides have been made in history, science, travel and research during the past decade, and we have not been able to keep abreast with the times. Many standard works and juvenile sets are in need of replacing, and fiction in general shows the severe usage to which it has been subjected.

Such donations as those of Mr. James Draper, Mr. James Sumner Draper and Mrs. Lydia Maria Childs, whose incomes can only be used for the purchase of books are most beneficial.

We also have to report closer contact with the public schools and an increase in the number of patrons and book takers. The library will be open for inspection and distribution of books on town meeting day from ten until six.

In asking for only eight hundred dollars for the library, we do it with a desire to do our part towards keeping the tax rate as low as possible, yet realizing that an increased appropriation in this department would prove of lasting benefit to the town.

A recommendation that we will urge is an early introduction of electricity for lighting.

The apparent unexpended balance as shown in the Treasurer of the Library Funds' report was reserved for payment February bills presented March 1, which have been settled amount to 89.53.

Appended is the Librarian's report with statistical information and catalogue of last year's accessions.

Respectfully submitted,

JOHN CONNELLY, Chairman,
ARTHUR G. BENNETT, Clerk,
FRANCIS SHAW,
HARRY E. CARSON,
C. B. WILLIAMS,
A. CLIFFORD BRYANT.

LIBRARIAN'S REPORT.

To the Trustees of the Public Library:

The librarian submits the following report for the year ending January 31, 1902:—

Number of volumes—classified			
Fiction	3,121		
Biography	850		
General subjects . . .	7,169		
Total		11,140	
Unclassified			
Government and state reports	1,873		
Miscellaneous and old volumes	668		
Duplicates, "Wayland in the Civil War."	63		
Total		2,604	
Total			13,744
Number purchased		57	
Number re-placed		24	
Number re-bound		61	
Number presented		75	
Number taken out during the year .		5,487	
Number cards in use		290	

Books and magazines have been received from the following:

Mr. A. G. Bennett, Ellen S. Bulfinch, Mr. James Coolidge, Mrs. Charles A. Cutting, Mr. Wallace Draper, Mr. F. H. Fowler, Havard University, the Misses Loring, Mrs. Warren G. Roby, the

State Government, Godfrey Sweven, the United States Government, the University of Pennsylvania.

The following periodicals are to be regularly found in the reading room:

Review of Reviews, Bookman, Harper's Monthly, Munsey's, McClure's, Cosmopolitan, Century, Atlantic Monthly, Success, Amateur Work, Ladies' Home Journal, Practical Politics, Woman's Journal, Harper's Weekly, Saturday Evening Post, Good Roads, Cochituate Enterprise, St. Nicholas, Perry Magazine, Youths companion.

CLASSES OF READING BY PER CENT.

Fiction . .	83.204	History . . .	3.113
Biography . .	2.971	Science . . .	1.133
Literature . .	4.386	Religion . . .	.143
General works .	3.679		

The chief feature of the past year has been the re-cataloguing of the books. For this work, the services of Miss Louise E. Jones of the Amherst Library school were secured, she had one assistant, and from time to time other help on the manual part. After September, the Librarian gave sufficient time and aid to become as familiar as was possible (in so short a time) with the system. The work under Miss Jones' direction ended Nov. 1. Few realize the amount of thought, time and labor necessary in the classifying of the books of a library of ordinary size. The results of the four months' work amply rewarded the expenditure.

Circumstances decreed that three things needful for the completion of the work should be left undone. One was the type-writing of a duplicate card catalogue for the Cochituate branch; the second, the making of a new accession-book; the third the classifying of the state and government documents. The duplicate catalogue was subsequently done by Miss Josephine Clark and used at Cochituate for the first time the evening of January 17, 1902. The work on the accession-book has been

left to the Librarian, but as it is a long and exacting task, and the duties necessary for the running of the library not few, only a remote date can be set for its completion. The third matter is still waiting, neither of these last two materially affect the ordinary running of the library, but it is to be greatly desired that both shall be done as speedily as circumstances will permit.

A word in explanation of the Dewey system of cataloguing may not be amiss. All books are classified by subject matter as fiction, biography or general works. Books of fiction are marked with the initial of the author's name, the author's number (taken from a prepared author card) and the initial of the books title: e. g. "The Crisis," by Winston Churchill, C 4944 C; while "Richard Carvel" by the same author is C 4944 R. The fiction books are arranged on the shelves alphabetically and numerically under each letter. Thus all the works of an author come together on a shelf. This is a great advantage, saving much time that must otherwise be spent in consulting the catalogue.

Works of biography bear a large "B": then follows the initial of the person who is the subject of the work, a number, and the initial of the author. "The private Life of the Sultan" by M. Georges Dorys is marked B-A B 32 D. These are placed on the shelves in a similar manner as that used for the fiction, but in this case, we find the letters bring together all works on the same person, i. e., all biographies of George Washington are together. This is exactly what is wanted as the authors of biography are of comparatively little importance.

Other works fall into ten classes; general works, philosophy, religion, sociology, philology, natural science, useful arts, fine arts, literature and history. Each of these classes is allotted one hundred numbers, and the divisions of each class designated by some number included in the one hundred numbers, e. g. religion is 200; natural theology, one of its divisions, is 210-220; and "The Life Everlasting" by John Fiske becomes classed, 218-F 54 L. The arrangement on the shelves is numerical to bring together books on the same subjects; then under the numbers

the order is by letters so that all books on the same subject by the same author are together.

This is the system briefly stated. The great advantage is that there is certain to be a combination of numbers and letters for each book that may come to the library in the future, and that this so-called book-number will place the volume on the shelves just where it would have gone had it been there when the cataloguing was first done. It does not break down the scheme.

When the books are prepared for delivery, a pocket holding a slip bearing title, authors and number is pasted to the inside of the back cover. On the oppposite leaf is pasted a slip marked "Date due." When the volume is called for, the date on which the book must be returned is stamped on the slip so marked, and the other slip taken from the pocket, stamped and placed in an envelope, bearing the borrower's name. The envelopes are arranged in trays by the dates stamped on the slips. Thus, for every volume out, the librarian holds a slip telling all about it. On the return of the book, the slip is replaced in the back before the book is shelved.

In closing, the librarian would like to express her satisfaction with the working of the new system, and to thank those who made it possible to introduce it into the library.

MABEL T. S. SMALL,
Librarian.

REPORT OF THE ENGINEERS OF THE FIRE DEPARTMENT.

We beg to report the following fires to which the department responded for the year ending March 1, 1902:

April 13, 1901. Alarm from box 34 at 11.35 P. M., for fire in R. C. Dean's house, Main street.

April 14, 1901. Alarm from box 25 at 1.30 P. M., for fire in Bullard's woods, in rear of Charles Wright's.

April 27, 1901. Alarm from engine house at 2.50 P. M., for fire in woods by gate house.

May 4, 1901. Alarm from engine house at 1.45 P. M., for fire in Bullard's woods, rear of Charles Wright's.

June 15, 1901. Alarm from box 34 at 1 P. M., for fire at Griffin's shop.

July 4, 1901. Alarm for fire at 1.30 P. M., for fire in H. Shaw's woods at left of Green Lane.

Sept. 25, 1901. Alarm from box 34 at 9.30 P. M., caused by the burning out of chimney of N. C. Griffin's factory.

Oct. 24. Alarm from box 24 at 8.20 P. M., caused by the burning out of chimney on C. W. Dean & Co's factory.

Oct. 24, 1901. Alarm from push button 9, at 9.10 for fire in B. F. Adams' house.

Dec. 10, 1901. Fire at Bigelow corner, Mrs. Burke's house, 2.15 a. m. No alarm.

Feb. 15, 1902. Fire at Sidney Loker's house. Slight damage. No alarm given.

Fireman's Pay.

	Use of water in engine house from Jan. 1, 1901, to Jan. 1, 1902 .	12 00
	Milk, cheese, crackers and coffee .	2 58
	Coal and wood	43 51
Feb. 11, 1902.	One ton coal	6 25
Feb. 14, 1901.	One broom	50
	Natick Gas & Electric Co. . .	38 50
		$648 62

The fire department and fire alarm are in excellent condition We have found it a great improvement having one of the firemen lodge in the house.

We appreciate the generous gift of $50 to the department from Mr. Francis Shaw which is in the hands of the engineers.

	$1148 00	$1148 00

Cash in hands of Engineers from sale of old copper $12 35.

Respectfully submitted,

E. W. MARSTON, Chief,
A. J. RICKER, 1st Assistant,
W. L. KING, Clerk.

REPORT OF DECORATION DAY COMMITTEE.

The small appropriation of $100 in 1901 did not enable your committee to carry out the program they would have liked, and without the kind assistance and donations from several of our patriotic ladies and a generous gift of $15 from a public spirited citizen we should have been obliged to have omitted the lunch which is usual and necessary on such occassions. The sum of $100 is inadequate to properly carry out the exercises of the day, and we would respectfully recommend a larger one for ensuing year.

The expenditures are as follows:

Wayland Band and transportations .	$50 80
Geo. Fullick, flowers	20 65
P[illegible]ing programs	4 25
Music and blowing organ . . .	1 00
M. E. Church	2 50
G. L. Wyman, coffee etc. . . .	4 25
N. & C. Electric Railway . . .	7 70
L. K. Lovell, flags ex. etc. . . .	8 85
	$100 00

A. C. BRYANT,
WILLIAM T. DUDLEY,
W. S. LOVELL.

STATE AID.

The following is a list of persons, (with the amounts) who received State and Military Aid from March 1, 1901 to Feb. 28, 1902.

Butterfield, John C.	$48 00
Butterfield, Lizzie M.	48 00
Brummett, Rosalia	48 00
Badger, Mary A.	30 00

C. H. BOODEY,
H G. DUDLEY,
W. M. FULLICK,

Commissioners Wayland Water Works Sinking Fund.

Wayland, Mass., Feb. 28, 1902.

REPORT OF THE SUPERINTENDENT OF THE WAYLAND WATER WORKS.

We have had plenty of water in Basin all the time this year, and as we had no large fires to draw on it, were never lower than two (2) feet, from high water mark. The commissioners decided that as we had water bonds coming due this year, not to lay out any money on improvements on basin or pipe line.

The maintenance account is as follows:

1901.

April	1.	To labor for March	$14 00
	1.	To L. Champagany	2 00
May	1.	To labor for April	23 50
June	1.	To labor for May	19 00
June	16.	To Sumner & Goodurn . . .	8 37
July	1.	To labor for June	22 50
	6.	To Howe & Co.	65
	20.	To W. Port	2 00
	30.	To Barrett M'f'g. Co. . . .	2 40
Aug.	1.	To labor for July	20 50
	29.	To Bigelow, Dowse & Co., . .	5 60
Sept.	1.	To labor for August . . .	27 00
Oct.	1.	To labor for September . . .	26 50

Feb.	28.	Water commissioners' orders	1,996 00	
		Overdrawn		256 00
			$2,892 00	$2,892 00

NOTE. The apparent overdraft of $256 in this account, is the result of complications on the books of past years due to orders drawn by the Selectmen conflicting with the water commissioners, and consequent errors in the book-keeping. As a matter of fact, the financial difference between the two departments was adjusted last spring, and neither department is now indebted to the other, or anybody else; but as the Treasurer cannot transfer or alter existing accounts on his books, the Auditor would suggest that the Town authorize the Treasurer to correct his books by transferring $256 from the contingent account to his Water Commissioners' account, thus balancing an account which has been very much in dispute the past three years.

F. E. YEAGER,
Auditor.

To the Citizens of the Town of Wayland:

Your Auditor begs to call attention to the fact that our book-keeping methods are not what they should be, and are such as would not be tolerated in any line of business, and I strongly recommend the immediate introduction of a proper system of book-keeping—a system that any citizen of ordinary intelligence can understand, and above all, one that can be audited. Under the present obsolete method of keeping the Town's accounts, the Auditor cannot properly fulfill the duties of his office, and his work, necessarily, is confined to checking the various accounts by "tagging" every transaction and entry made, and keeping a duplicate set of accounts, which is by no means certain, or satisfactory (either to the Auditor or the various Town officials), and involves an enormous amount of needless work and time; and when the offices of Tax Collector and Treasurer are held by one individual, the work is greatly increased and complicated. The two offices should not be combined, from an auditing point of view, if for no other reason. The various mistakes and discrepancies which have turned up in past years would not have occurred had a proper system of accounting been used, or had they occurred, could have been taken care of at once. The Treasurer's Water Commissioners' account on the Town's Books, where there has been more or less variance in past years, is a fair example. The differences here were of such a complicated nature as to be hardly explainable, except by a careful and personal examination of the accounts for each year from the beginning, some three years ago. See note following the Treasurer's Water Commissioners' account.

Would also recommend that all bills, vouchers, etc., present, past and future, be placed under the charge of some one official, who alone shall properly file same away, and be responsible for their keeping, so that when any one particular voucher is wanted it can be found readily, thereby saving much time, and preventing the further mixing up of contents of Town Vault. The Town Clerk has done this the past year, in so far as vouchers in hands

of Selectmen were concerned; but the matter should be systematized to include all town vouchers, etc. No individual can appreciate the annoyance caused by the inability to find an old document when wanted, better than one who has searched in vain among the old records.

Would also call your attention to the increase in the Auditor's duties, viz: the examining of the Tax Collector and Treasurer's books, once at least each month, and the sending out of notices for non-payment of taxes. This latter item alone calls for an extra large amount of work at a time of the year when the Auditor invaribly has his hands full, balancing the accounts, and compiling and printing Town Report. This present month the Auditor will be obliged to make out and mail individual notices to the amount of $20,700, in amounts of from $2.00 upwards. If this notifying of delinquent tax payers could be attended to at any other time, or if the Auditor was granted an amount in addition to his salary sufficient to employ assistance, it would be a relief at a time when his duties are the greatest. The following is a copy of the notice your Auditor is sending out:—

At Annual Town Meeting, held March 25, 1901, it was voted:—"That the Auditor be instructed to examine the Books of Treasurer and Collector of Taxes once each month, and on or before the 20th day of March, in each year, notify each person and corporation whose tax appears unpaid of that fact;" and in compliance with said vote the undersigned is obliged to notify you that the Tax Collector's books, at this date, show unpaid taxes assessed in your name for the year, amounting to $.

Respectfully

FRANK E. YEAGER,

Auditor.

		$24,520 53	

17045.33

We recommend that the sum of five hundred and sixty dollars be transferred from water rates to pay interest on water bonds.

That the Selectmen be authorized to draw from the contingent fund such sums of money as may be necessary, not exceeding five hundred dollars, for assisting needy soldiers and their families.

That the sum of three thousand dollars be appropriated for interest on town debt to be taken from the contingent fund.

That the money for removing snow be drawn from the contingent fund.

That the sum of two thousand five hundred and sixty-eight dollars and ninety-seven cents, the unexpended balance on the Baldwin Bridge appropriation, be immediately returned to the contingent fund.

That the money to pay insurance on town buildings and contents be drawn from the contingent fund in a sum not to exceed six hundred dollars.

We have carefully considered the needs of the various departments and find that the sums recommended, if adopted, will meet the needs of the departments and are as low as can be safely recommended.

March 7, 1902.

ANNUAL TOWN MEETING, MARCH 24, 1902.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

MIDDLESEX, ss.

To either of the Constables of the Town of Wayland in said County: Greeting:

In the name of the Commonwealth of Massachusetts, you are commanded to notify and warn the qualified voters of said Town of Wayland, to meet at the Town Hall in said Wayland, on Monday, March 24, 1902, at 6.30 o'clock in the forenoon, then and there to act on the following articles, viz:—

ARTICLE 1. To choose by ballot a Moderator to preside in said meeting.

ART. 2. To choose a Town Clerk, Treasurer, Collector of Taxes, Auditor, Highway Surveyor, three Selectmen, Treasurer of the Library Funds, Tree Warden, one member of the Board of Health, to fill vacancy, seven Constables all for one year. One School Committee for two years, to fill vacancy; one School Committee, one Sinking Fund Commissioner, one Assessor, one Water Commissioner, one Overseer of the Poor, two Trustees of the Public Library, one member of the Board of Health, all for three years. Also to answer the following question, "Shall licenses for the sale of intoxicating liquors be granted in the Town of Wayland for the year ensuing?"

All names of candidates for the offices aforesaid and the said question must appear upon the official ballot, and be voted for in accordance with chapter 11 of the Revised Laws of Massachusetts. For the purposes specified in this article the polls

will be opened immediately after the election of a Moderator, and will remain open continuously till 1.30 P. M., when they may be closed.

Art. 3. To choose all other necessary Town Officers, Agents and Committees, and hear reports of Town Officers, Trustees, Agents and Committees, and act thereon.

Art. 4. To grant and appropriate money for any and all necessary Town purposes and expenses for the ensuing year, and order the same to be assessed, or do or act.

Art 5. To authorize the Selectmen to consult counsel on important Town cases.

Art. 6. To see if the Town will accept the list of Jurors as prepared by the Selectmen.

Art. 7. To appropriate the money received from the County Treasurer for dog licenses.

Art. 8. To see if the Town will authorize its Treasurer, with the approval of a majority of the Selectmen, to borrow money temporarily in anticipation of taxes for the municipal year ending Feb. 28, 1903, and if so, how much.

Art. 9. To see if the town will accept as a town way the street known as Damon street, in Cochituate village.

Art. 10. To see if the town will accept the road laid out by the Selectmen, leading from near the house of J. L. Moore to near the house of Samuel S. Davidson.

Art. 11. To see if the town will grant five hundred dollars to repair the road from Watson's corner (so called) to the Concord road.

Art. 12. To see if the town will accept the road from Sand Hill to the Boston road, near the late residence of Jonas N. Morse.

Art. 13. To see if the town will extend the Electric lights to Fiske's corner on Main street, and Simpson's corner on Plain,

Art. 14. To see if the town will grant a sum of money to paint the Town Hall; and place wires therein for Electric lighting, or do, or act.

Art. 15 To see if the town will grant a sum of money, for lighting its public buildings, and the streets in and near the center of Wayland by electricity, or do or act.

Art. 16. To see if the town will grant the sum of two hundred dollars, to gravel the road from Bond's Hill, so called, to the entrance to the Wayland Water Works, or do or act.

Art. 17. To see if the town will grant a sum of money to rebuild the fence around the North cemetery, or do or act.

Art. 18. To see if the town will release to E. H. Atwood any right that it acquired under a tax sale of the real estate where he now resides, or do or act.

Art. 19. To see what action the town will take relative to the payment for water used in its public buildings.

Art. 20. To see if the town will vote to adopt a system of Book-keeping suitable to its requirements, and appoint a committee to introduce the same.

Art. 21. To see if the town will appoint a committee of three to revise the salaries of Town Officers, or do or act.

Art. 22. To see what action the town will take in reference to the sum of one thousand dollars, appropriated March 27, 1899, for a school building in Cochituate.

Art. 23. To see if the Town will order Main street in Cochituate Village to be cut down, or otherwise repaired, or do or act.

Art. 24. To see if the Town will grant two hundred and fifty dollars to relay the culvert near Tower Hill, or do, or act.

Art. 25 To see if the Town will rescind the vote whereby it instructed the Selectmen to call Citizen Caucuses, or do or act.

And you are required to serve the warrant by posting attested copies thereof at each of the Post Offices and Town House in said Town, seven days at least before the appointed time for holding said meeting.

Hereof fail not and make due return of this warrant with your doings thereon to the Town Clerk at the time and place appointed for holding said meeting.

Given under our hands this eighth day of March, in the year of our Lord one thousand nine hundred and two.

ALBION F. PARMENTER,

FEBRUARY 28, 1902, TO MARCH 1, 1903

CAMBRIDGE, MASS.
PRINTED BY J. FRANK FACEY
1903

ANNUAL TOWN MEETING, MARCH 23, 1903.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, SS.

To either of the Constables of the Town of Wayland in said County, Greeting:

In the name of the Commonwealth of Massachusetts you are required to notify and warn the inhabitants of said Town qualified to vote in town elections and in town affairs to meet at the Town Hall on Monday, March 23, 1903, at 6.30 o'clock in the forenoon, there and then to act on the following articles, viz:

ARTICLE 1. To choose a Moderator.

ART. 2. To choose a Town Clerk, Treasurer, Collector of Taxes, Auditor, Highway Surveyor, three Selectmen, Treasurer of the Library Funds, Tree Warden, one Assessor to fill a vacancy,

one Water Commissioner to fill a vacancy, seven Constables, all for one year, one Member of School Committee, one Sinking Fund Commissioner, one Assessor, one Water Commissioner, one Overseer of the Poor, two Trustees of the Public Library, one Member of the Board of Health, all for three years. Also to answer the following question, "Shall licenses for the sale of intoxicating liquors be granted in the Town of Wayland for the year ensuing?"

All names of candidates for the offices aforesaid and the said question must appear upon the official ballot, and be voted for in accordance with chapter 11 of the Revised Laws of Massachusetts. For the purposes specified in this article the polls will be opened immediately after the election of a Moderator, and will remain open continuously till 1.30 P. M., when they may be closed.

ART. 3. To choose all other necessary Town Officers, Agents, and Committees, and hear reports of Town Officers, Trustees, Agents and Committees, and act thereon.

ART. 4. To grant and appropriate money for any and all necessary Town purposes and order the same to be assessed, or do or act.

ART. 5. To authorize the Selectmen to consult counsel on important Town cases.

ART. 6. To see if the Town will accept the list of jurors as prepared by the Selectmen.

ART. 7. To appropriate the money received from the County Treasurer for dog licenses.

ART. 8. To see if the Town will authorize its Treasurer to borrow money temporarily in anticipation of taxes for the municipal year ending Feb. 28, 1904, and if so, how much?

ART. 9. To see if the Town will accept two hundred dollars, bequeathed in trust by Mrs. Anna Lovejoy, and fix the rate of interest thereon, or do, or act.

ART. 10. To see what action the Town will take in regard to the offer of a gift from one of its citizens.

ART. 11. To see if the Town will extend the street Electric lights from Cochituate to Fiske's corner, or do, or act.

ART. 12. To see if the Town will grant money to paint, repair, and cleanse the Town Hall, or do, or act.

ART. 13. To act upon the Report of the Committee appointed to establish the grade of Main street in Cochituate, and grant money for repairs thereon, (if any be ordered by the Town) or do, or act.

ART. 14. To see if the Town will allow, and establish as a public way, Damon street (so called), as laid out by the Selectmen, or do or act.

ART. 15. To see if the Town will allow, and establish, as a public way, a street from the late residence of Jonas H. Morse to Plain street, as laid out by the Selectmen, or do or act.

ART. 16. To see if the Town will authorize the Selectmen to further extend the street lights in and near Wayland Centre, or do or act.

ART. 17. To see if the Town will reduce the rate of interest on the Parson's fund, or do or act.

ART. 18. To see if the Town will vote to allow the Weston Water Company to extend its pipes in the Plain Road at Tower Hill, from the boundary line between the Town of Wayland and the Town of Weston, to the Peck Place, so-called, and now owned by Dr. F. W. Draper, in the Town of Wayland, for the purpose of supplying the residents on said street with water for the extinguishment of fires, and for domestic and other purposes, or do or act.

ART. 19. To see if the Town will appoint a Committee to investigate the matter of supplying Wayland Centre and vicinity with pure water, or do or act.

ART. 20. To see if the Town will declare itself in favor of improving or making special repairs on Concord Road, so-called, beginning at the railroad crossing and extending thence toward Lincoln and Concord, and pass a vote directing that a specified amount to be taken from the general appropriation for highway purposes shall be expended under the direction of the Surveyor of Highways in so improving or repairing said Concord Road, or take any other or further action relative to the repairing or improving of said road, or any portion thereof, or do or act.

ART. 21. To see if the Town will authorize the Selectmen to sell the gasoline fixtures, tanks and machinery formerly used in

lighting the Town Hall; also the lamps and posts formerly used in lighting the streets of Wayland Centre, or do or act.

ART. 22. To see if the Town will authorize the Water Commissioners to borrow two thousand dollars for three years, the same to be used on reservoir and to be paid from water rates, or do or act.

ART. 23. To see if the Town will grant an additional sum of one hundred dollars to rebuild culvert at Tower Hill, or do or act.

ART. 24. To see what action the Town will take to secure economically the janitor service for the Public Buildings; the transportation of scholars, the purchase of supplies, and the awarding of contracts for labor and material whenever the same is practicable, or do or act.

ART. 25. To see if the Town will authorize the Library Trustees to sell the gas apparatus and certain chairs and unused book-cases formerly used in the Library building, or do or act.

And you are required to serve this warrant by posting attested copies thereof at each of the Post Offices and Town House in said Town seven days at least before the appointed time for holding said meeting. Hereof fail not and make due return of this warrant with your doings thereon to the Town Clerk, on or before Saturday, March 21, current.

Given under our hands this tenth day of March in the year of our Lord one thousand nine hundred and three.

ELIJAH H. ATWOOD,
ALBION F. PARMENTER,

REPORT OF SELECTMEN.

WAYLAND, February 28, 1903.

We have made the following appointments as required by law:

Engineers of Fire Department. Edwin W. Marston, Willard C. Hunting, William L. King.

Inspector of Animals. Thomas Bryant, V. S.

Registrar of Voters. Frank Haynes.

Auctioneers. George E. Sherman, Jacob Reeves and Daniel W. Ricker.

Public Weighers. George B. Howe, Lorenzo K. Lovell, Albert L. Adams.

Fish and Game Warden. John J. Erwin.

Burial Agent for Indigent Soldiers. Charles H. May.

Election Officers. Precinct 1. Warden, E. F. Lee; Clerk, William Stearns; Inspectors, Howard W. Parmenter, T. W. Frost, John J. Roan, James I. Bryden. *Precinct 2.* Warden, Ernest E. Butler; Clerk, C. S. Williams; Inspectors, N. S. Walton, Bryant M. Bailey, Ezra Lamay, William Lacoutre.

Janitor of Hall. John E. Linnehan.

Police Officers. Frank X. Lupien, John B. McManus, James Linnehan, M. W. Hynes, Orlando C. Ewing, Pliny W. Meader.

Special Police Officers. John E. Linnehan, Charles W. Ellms, Irving Currier, Alvin B. Neal, William L. King, Charles Magorty.

Sealer of Weights and Measures. Daniel Brackett.

The Selectmen, after making a careful investigation and obtaining several bids, decided that the appropriation of $100 was not enough to obtain satisfactory results in relaying the Culvert near Tower Hill, and would respectfully recommend an additional appropriation of One Hundred Dollars.

We have received plans and specifications from the Highway Commissioners for establishing a proper grade at Main Street in Cochituate, as per vote of the Town, and the cost thereof. The same are on file at the Selectmen's office.

Acting under a vote of the town we have contracted with the Weston Electric Light Co. for a term of five years, for a loop of twenty street lights which we believe are giving general satisfaction.

The Town Hall has been wired and equipped with new electric fixtures and electric lights throughout, in a first class manner, to the satisfaction of the Board.

The commercial lighting is to be furnished to the inhabitants of Wayland at the same rate as in Weston.

We would respectfully urge that the town appropriate a sum of money to paint and repair the Town Hall, outside and in.

ELIJAH H. ATWOOD,
ALBION F. PARMENTER,
WILLIAM S. LOVELL,
Selectmen of Wayland.

The expenses of the Overseers of the Poor have been increased by smallpox and scarlet fever to the amount of $353.30.

An appropriation of $2,500.00 is asked for the ensuing year.

Respectfully submitted,

DAVID P. W. LOKER,
DANIEL W. RICKER,
THEODORE S. SHERMAN,
Overseers of the Poor.

REPORT OF TRUSTEES OF PUBLIC LIBRARY.

During the past year the library has shown a steady gain in usefulness and adaptability to the requirements of the community. The reclassification, increasing as it has the accessibility of the library, has shown the wisdom of the undertaking, and thanks are due to the public spirited citizens and friends who made it possible. What for many years had been matters of guess work have been reduced to certainties. Statistical information including circulation and classes of reading is now based on facts, not conjecture. Books that are in the library can now be found without annoying delays.

The annual inspection was accomplished this year with more satisfactory results. A few books are missing which we trust will be returned or replaced soon. The library as a whole is in good condition considering the length of time that some of the books have been in service. We find that there has been considerable wear and tear which has necessitated the withdrawal of quite a number of books for rebinding. Many of what are termed standard works and classics are sadly in need of replacing with later editions, which are published in more attrative form and with type that is less tiresome to the eye; among these are such as Cooper, Scott, Dickens, Hawthorne and others, some of which have been in use since the institution of the library. The juveniles also need a thorough going over. The books put into the hands of the young should be in the best condition of any in the library for the moral and educational effect if nothing more.

The increased circulation, from 5487 last year to 6797 this year, is pleasing and would have been greater but for the withdrawal of books from circulation in Cochituate from December 13 to January 24, during the prevalence of smallpox.

The statistical tables as compared with last year show many other gratifying changes especially in the more profitable classes of reading. We have adopted the method of purchasing books monthly and it seems to meet with favor.

It is impossible to meet the demand for current fiction with our limited means and we do not think it advisable to invest as large an amount as formerly, in this class of books, many of which prove to be worthless after a few months circulation and are then left to take up valuable room. Among the great number of books of fiction now being published very few are of lasting worth.

It was with regret that we accepted the resignation of Mrs. Small which was tendered in December and took effect January first. Her term as librarian was marked for its efficiency and faithfulness, her ready adaptability to the details and needs of the library and the progressive spirit with which she entered into the work increased the usefulness and convenience of the library.

We succeeded in getting as her successor Miss Margaret E. Wheeler, who is a graduate of Bates College and is well equipped for the position. She is proving most satisfactory.

The friends of the library have not been unmindful of our wants. Early in the year we received from Mrs. William F. Matchett a gift of "Three hundred dollars for the purchase of books of biography, travel and reference principally" and by consulting the list of accessions it will be seen that we were enabled to procure many excellent and much needed works. Gifts of this nature are of lasting worth.

Later we received a typewriter, an acquisition that we could hardly do without. All the cards are now being typewritten, thus rendering them more legible and uniform.

Numerous other donations have been received including magazines from Mr. Wallace S. Draper, books from the late Dr. C. H. Boodey, the Misses Loring, Mrs. Charles A. Cutting, Mr. Francis Shaw, Hon. C. Q. Tirrell, Mr. John Q. Adams and unknown donors whose thoughtful interest should be fully appreciated by the citizens.

Through the kindness of Messrs. Francis B. and Horace Sears

the portrait of Judge Mellen has been framed in harmony with the library furnishings. And we are informed that we are soon to receive from the same source an appropriate frame for the protrait of their father, Rev. E H. Sears, who was closely identified with the early days of the library. We hope that these gifts may lead to others of a similar nature, as those who were identified with the library in former days are deserving places of honor in the present building, but of course should be in keeping with the surroundings.

Realizing that the method of lighting the library was deficient in many respects, and from the standpoint of safety not what it should be, the trustees asked the town at a special town meeting for an appropriation for electric lighting which was readily granted and the system is now in operation.

We also asked the town to take some action in recognition of the gift of the Library Building by the late Warren G. Roby and it met with hearty response in the form of an appropriation for a bronze tablet which has been placed in the library and the inscription is,

WAYLAND
FREE PUBLIC LIBRARY
FOUNDED — 1848

THIS BUILDING
THE GIFT OF
WARREN GOULD ROBY
1900

The opening of the library on Wednesday evenings is most satisfactory and there is a general demand for more open hours which the Trustees will gladly grant when sufficient funds are at their disposal to cover the extra expense.

Mrs. Sarah E. Heard, who faithfully served as Librarian from 1885 to 1901, has passed away during this year.

A matter that should have early attention is the establishment of a reading room and branch library at Cochituate.

We recommend an appropriation of eight hundred dollars for the next year. With this amount the library can be kept in operation but no department is more worthy of an increased appropriation and none could use it to better advantage.

Appended is the Librarian's report including a catalogue of last years accessions.

Respectfully submitted,

JOHN CONNELLY, *Chairman*,
FRANCIS SHAW,
ARTHUR G. BENNETT,
A. CLIFFORD BRYANT,
C. B. WILLIAMS.

NOTE. Owing to his absence abroad, the signature of Mr. Alfred W. Cutting, Clerk of the Board of Trustees, does not appear.

LIBRARIAN'S REPORT.

To the Trustees of the Public Library:

The Librarian submits the following report for the year ending January 31, 1903:

Number of volumes—classified:			
Fiction	3,194		
Biography	935		
General subjects . . .	7,311		
Total		11,440	
Unclassified:			
Government and state reports	1,951		
Miscellaneous . . .	783		
Total		2,734	
Total			14,174
Number purchased	121		
Number replaced	2		
Number presented	179		
Total number taken out during the year	6,797		
Number taken out through Cochituate office	1,158		
Number of cards in use . . .	466		

The following periodicals are to be regularly found in the reading room:

Harper's Magazine, Harper's Weekly, Scribner's, Munsey, St.

Nicholas, Atlantic, Saturday Evening Post, Success, Ladies' Home Journal, Youths' Companion, Bookman, Review of Reviews, McClure's, Cosmopolitan, Century, Woman's Journal, Cochituate Enterprise, Perry Magazine, Rhodora.

CLASSES OF READING BY PER CENT.

Fiction	77.621	Religion	.649
Biography	4.435	Sociology	.933
General works	1.926	Philosophy	.127
Literature	3.972	Art	1.585
Science	1.940	Juvenile	18.371
History	6.582		

The state and government reports still remain unclassified, but it is hoped that circumstances will permit of its being done in the near future.

The addition of a typewriter has facilitated the work of the Librarian to a great extent.

On account of smallpox the residents of Cochituate were not allowed to take books from the Library from December 13, 1902, to January 24, 1903. This has reduced the amount of circulation through the Cochituate office.

In closing, the Librarian is pleased to say that the past year has proved the new system to be a success.

MARGARET E. WHEELER,
Librarian.

WAYLAND, February 4, 1903.

HENRY D. PARMENTER,
Treasurer.

WAYLAND, March 1, 1903.

REPORT OF THE BOARD OF HEALTH FOR 1902-3.

The Board of Health respectfully submit the following report of contagious diseases: —

Smallpox, 18.
Scarlet Fever, 11.
Typhoid Fever, 2.

LICENSES GRANTED UNDERTAKERS, 2.

A. S. Morse. David P. W. Loker.

Nothing has been done in regard to Granny Pond. The Board will take no action unless so directed by the Town. It must be either drained or filled up, which would cost a large amount of money.

The piggeries at North Wayland are kept in perfect condition, and no complaints have been received from that vicinity.

The Board heartily thank the citizens of the town for co-operating with them during the outbreak of smallpox; also for behavior of patients while in quarantine.

EXPENDITURES.

E. E. Sparks, M.D., vaccination and medical services	$365 00
E. E. Sparks, M.D., vaccination and medical servises	50 00
P. S. Ide, M.D., vaccination and medical services .	72 50

WILLIAM M. FULLICK,
HENRY G. DUDLEY,
Water Commissioners, Wayland Water Works Sinking Fund.

February 28, 1903.

REPORT OF THE SUPERINTENDENT OF THE WAYLAND WATER WORKS.

The water works having been built (25) twenty-five years this fall we thought we would give a slight decription of same.

The reservoir consists of about sixteen acres with a capacity of (16) sixteen million gallons of water. There is a dam dividing the reservoir into two ponds, but by advice of state board, we have cut a channel through the dam making the two ponds into one. We have taken about (700) seven hundred loads of loam out of the reservoir this year at a cost of $128.18 and would recommend that all the mud and loam be removed from reservoir, and in order to start the same this summer would recommend that the town give the Water Commissioners power to borrow (2,000) two thousand dollars for three years, the same to be paid from water rates, and to be used on reservoir.

A leak developed below the dam last summer and after consulting with the constructing engineer, H. W. Blasdell, and by his advice, we repaired same at a cost of $158.84. The leak was caused by a broken pipe and was no fault of dam construction as the dam core is in fine order and first class.

There are about (7) seven miles of main pipe from 10 inches to 2 inches in diameter, there are (260) two hundred and sixty service taps on mains, some of which are not in use. There are (37) thirty-seven fire hydrants on line, which have been painted this year same as usual.

The maintenance account is as follows :

1902.

April	1.	To Labor for March	$11 50
May	1.	Labor for April	26 00

May	2.	Archie Dupree	$ 7 00
	21.	N. Tatro	6 00
June	1.	Labor for May	24 50
	3.	Bigelow & Douse	7 33
July	1.	Labor for June	22 50
	16.	Howe & Co.	65
Aug.	1.	Labor for July	14 00
	19.	Bennett Mfg. Co.	2 40
	28.	Bigelow & Douse & Co. . . .	6 44
Sept.	1.	Labor for August	18.50
	1.	Expense to Boston	1 00
Oct.	1.	Robinson & Jones	50
	1.	Labor for September	29 50

Balance unexpended	7 01	
		$100 00

A. CLIFFORD BRYANT,
ERVIN W. SCHLEICHER,
PAUL T. DRAPER.

REPORT OF THE ENGINEERS OF FIRE DEPARTMENT.

We beg to report the following fires to which the department responded for the year ending March 1, 1903.

March 24, 1902. Alarm from engine house at 8.05 P. M. for fire at Town Hall, Wayland, caused by gas explosion. No damage. Fire Department responded on special car.

March 26, 1902. Alarm from box 34 at 11.05 P. M. for fire in chimney at N. C. Griffin's factory.

April 19, 1902. Alarm from engine house at 2.20 P. M. for fire in woods in rear of Charles Wright's.

April 28, 1902. Alarm from box 36 at 4 P. M. for fire in woods in front of Leonard Loker's house.

May 1, 1902. Alarm from engine house at 7.15 P. M. caused by burning out of chimney at N. C. Griffin's factory.

May 12, 1902. Alarm from engine house at 1.45 P. M. for fire in woods owned by F. Shaw on west side of Wayland road.

May 16, 1902. Alarm from box 34 at 11.20 P. M. for fire at F. Shaw's house at Five Paths.

May 18, 1902. Alarm from engine house at 7.10 P. M. for fire in woods in rear of C. C. Thomas's house.

July 15, 1902. Fire at L. H. Huntley's house about 1½ miles north of Wayland. Destroyed house, barn and shed.

November 22, 1902. Alarm at 9.05 P. M. for fire in woods in rear of Underwood's house.

December 15, 1902. Alarm from box 24 at 8.20 P. M. for fire in Ralph Bent's house.

January 24, 1903. Alarm from box 23 at 1.05 P. M. for fire in L. C. May's factory.

Feb. 10, 1903. Alarm from box 25 at 12, midnight, in tenement occupied by D. Foley.

	Firemen's Pay	$394 00
	Paid for extinguishing wood fires .	26 50
	Natick Gas & Electric Co. . .	40 54
April 28, 1902.	Use of tower bell and clock for fire alarm	50 00
	E. W. Marston taking care of fire alarm	25 00
March 6, 1902.	E. W. Marston labor and stock .	18 95
May 14, 1902.	Pettingell Andrews Co. Supplies .	13 68
April 1, 1902.	P. D. Gorman, labor in engine house	1 50
March 27, 1902.	C. H Handerson, repairing clock .	2 00
April 3, 1902. Sept. 6, 1902. Jan. 1, 1902.	W. D. Parlin, supplies . . .	4 25
March 22, 1902.	Cleland & Underwood, 6 cane seat chairs	6 00
	E. W. Marston for use of automatic current breaker and care of same	5 00
May 14, 1902.	Geo. M. Stevens, labor and supplies	6 86
May 16, 1902.	Natick & Cochituate Street Railway Co., special car to Wayland .	2 50
March 19, 1902. April 28, 1902.	Robinson & Jones, coal and wood and use of team	9 00
	Use of water in engine house from Jan. 1, 1902 to Jan. 1, 1903 .	12 00
Aug. 14, 1902.	James S. Corbin, for labor on fire alarm system	15 00
Aug. 4, 1902.	J. A. & W. Bird & Co., 1 barrel Blue Vitriol	23 63
Oct. 30, 1902.	W. E. Decrow, repairing register testing and adjusting same . .	2 95
	Mitchell Manufacturing Co. 4 fire department badges	4 00
Nov. 28, 1902.	A. B. Neal, use of team . .	1 00
		$664 36

The fire department and fire alarm are in excellent condition.

FINANCE COMMITTEE.

The Finance Committee respectfully submits the following, and recommends that the same be appropriated and adopted, viz: —

For schools, fuel and care of buildings	$8,000 00
School supplies	600 00
Transportation of scholars	1,300 00
Repair of school buildings	100 00
Superintendent of Schools	375 00
School incidentals	200 00
Overdrafts	1,195 72
Incidentals	2,000 00
Salaries	1,300 00
Electric lights	617 50
Fire department, including fire alarm	700 00
Hydrants	384 00
Highways, bridges and culverts	2,000 00
Support of poor	2,000 00
Collection of taxes	350 00
Abatement of taxes	200 00
Library	800 00
Lakeview Cemetery	50 00
North and Centre Cemeteries	50 00
Schoolhouse loan	1,100 00
Memorial Day	100 00
Sinking fund	1,408 80
Total	$24,831 02

We recommend that the sum of four hundred and eighty dollars be transferred from water rates to pay interest on water bonds.

That the Selectmen be authorized to draw from the contingent fund such sums of money as may be necessary, not exceeding five hundred dollars, for assisting needy soldiers and their families.

That the Selectmen be authorized to draw from the contingent fund the sum of five hundred dollars for the use of Board of Health.

That the sum of three thousand dollars be appropriated for interest on town debt, to be taken from contingent fund.

That the money for removing snow be drawn from contingent fund.

ALBION F. PARMENTER, *Chairman.*
ISAAC DAMON,
ERNEST E. BUTLER,
DANIEL W. RICKER,
PAUL T. DRAPER, *Clerk*

REPORT WAYLAND WATER COMMITTEE

APPOINTED . .
MARCH 24, 1903

REPORT OF COMMITTEE

ON

WATER SUPPLY

OF THE

TOWN OF WAYLAND

APPOINTED AT

ANNUAL TOWN MEETING

MARCH 24, 1903

NATICK, MASS.,
PRESS OF NATICK BULLETIN
1903

TOWN CLERK'S OFFICE

WAYLAND, MASS., March 24, 1903.

ARTICLE 19. Voted, that the matter of furnishing the inhabitants of Wayland with water be referred to a committee of five and said committee be given full power to investigate, procure plans and estimates from competent engineers and report their findings, together with their recommendations thereon, in writing. Said committee to consist of the following named persons: Francis Shaw, Walter B. Henderson, Chester B. Williams, Willard Bullard and John Connelly.

ART. 22. Voted, that the matter of expending two thousand dollars in cleaning out the reservoir of the Wayland Water Works be referred to the committee appointed under Article Nineteen (19) and that the said committee be given full power to consult competent engineers and procure plans and estimates of work necessary to put the system in proper condition.

A true copy of record.

Attest:

SEAL

DANIEL BRACKETT,
Town Clerk.

REPORT OF COMMITTEE

In accordance with the foregoing votes of the town, your committee duly organized with Mr. Francis Shaw, chairman, and Mr. Walter B. Henderson, secretaiy.

The first action of the committee was to obtain the advice of the State Board of Health as authorized by Sec. 117, Chap. 75 of the Revised Laws. After receiving the report of the State Board of Health (which is printed herewith) it became evident that the services of a civil engineer with experience in water works construction were necessary to aid us in finding the true state of the present system and advise us as to its immediate needs.

Mr. L. M. Hastings of Cambridge, Mass., formerly city engineer of that city, was engaged by the committee, and his report is annexed and made a part of this report

The committee, after careful consideration, have concluded that it would be unwise to extend the water mains to Wayland Centre in view of the fact that it would probably necessitate the installation of an auxiliary supply system.

The committee approve the report of the consulting engineer, Mr. Hastings, and indorse the four recommendations at the conclusion of his report, and recommend that the water be restored to its former level in the basin, that Mr. Hastings be employed to supervise the work, and that a sum not exceeding $6,000 be appropriated to carry out the work contemplated. To make this improvement possible, that the treasurer be

authorized to borrow this sum on a series of notes of the town and that the same be paid from the water rates.

FRANCIS SHAW,
WALTER B. HENDERSON, Secretary,
CHESTER B. WILLIAMS,
WILLARD A. BULLARD,
JOHN CONNELLY,

Committee.

BOARD OF HEALTH REPORT

Reply of the State Board of Health to an Application from Messrs. Henderson, Williams and Connelly for Advice in Relation to the Improvement of the Water Supply of Wayland, under the Provisions of Section 117 of Chapter 75, of the Revised Laws of Massachusetts.

COMMONWEALTH OF MASSACHUSETTS

OFFICE OF THE STATE BOARD OF HEALTH,

STATE HOUSE, BOSTON, April 27, 1903.

To Messrs. Walter B. Henderson, Chester B. Williams and John Connelly, Special Committee of the Town of Wayland.

GENTLEMEN :—The State Board of Health received from you on March 31 an application requesting the advice of the Board as to the improvement of the water supply of Wayland, in which you state that the town is planning to expend $2,000 in cleaning the present reservoir and removing mud from the bottom, and that you are considering the question of extending the present system to supply the centre of the town; and in response to your application the Board has caused the reservoir and its surroundings to be examined by its engineer and has considered the results of numerous analyses of the water of this source made recently and in past years.

It appears from the information available to the Board that water can be drawn at present either directly from the reservoir or from a filter gallery extending along the shore of the reser-

voir for a distance of about 400 feet, with two branches extending beneath the bottom of the reservoir.

The results of analyses show that the water of the reservoir is generally highly colored and contains frequently an excessive quantity of organic matter, and that it is often objectionable for drinking and other domestic purposes on account of a disagreeable taste and odor. The objectionable quality of the water of the reservoir is evidently due principally to the character of the reservoir, which is very shallow and contains much organic matter in its bottom.

The water of the filter gallery contains less organic matter than water taken directly from the reservoir, but this water, which is derived largely from the pond by filtration through the ground, is generally effected by an excessive quantity of iron, due to the imperfect filtration of the water, and by a disagreeable taste and odor which render it objectionable for domestic purposes.

The water of the filter gallery cannot probably be improved by any changes that it is practicable to make either in the reservoir or in the gallery itself. The waters of other filter galleries in the state which have been constructed, like this one, beneath, or in very close proximity to, the shores of the pond, stream or reservoir, have in all cases been found to be objectionable on account of the presence of an excessive quantity of iron, as in this case, and the only means of improving the water of the filter gallery, if it is to be continued in use, will be to filter it through sand in such a way as to remove the excessive quantity of iron.

The water of the reservoir can doubtless be considerably improved by a thorough cleaning of the bottom and the removal of all mud, stumps and other organic matter from the area covered by water and by the drainage of swamps on the watershed, but the cost of removing a sufficient portion of the organic matter in this reservoir to have a noticeable effect in improving the quality of the water would doubtless be very much greater, judging from the information available to the

Board, than the sum mentioned in your application.

It will be impossible to clean the reservoir without drawing out the water, and the flow of the brook above the reservoir would not be sufficient during the summer season to supply the village while the improvement was being made, so that a temporary supply from some other source would be necessary.

The Board has also considered the suggestion of extending the works so as to supply the central village of Wayland. It appears from such information as is available to the Board as to the capacity of your storage reservoir, the size of its water-shed and the quantity drawn from the source at present, that the capacity of this source in a very dry season is but little, if any, in excess of the quantity now being used by the village of Cochituate alone, and if the supply should be extended to the central village of Wayland it is likely that an additional quantity of water would soon be required from some other source to meet the requirements of the town in a dry season, especially since a considerable quantity of water is liable to be used from your present source for running the pumps to increase the pressure needed for fire purposes.

Considering the probability that the present source would soon prove insufficient for the supply of Wayland should the extension now proposed be made, and considering that, even if the reservoir should be thoroughly cleaned and the swamps on its water-shed drained, the quality of the water of this source would still be likely to be objectionable, the Board would advise that you make investigations of the feasibility and probable cost of obtaining a supply of ground water from some source in the neighborhood of the village. A good ground water supply would be far more satisfactory for all domestic purposes than the water of your present source, even after all the improvement practicable had been made therein, on account of the freedom of ground water at all times from color, taste and odor and its lower temperature in the summer season.

The Board would advise that, in making further investigations, you secure the assistance of an engineer of experience in

matters relating to water supplies, and when you have made further investigations the Board will, if you so request, give you further advice in this matter.

By order of the Board,

SAMUEL W. ABBOTT,
Secretary.

CIVIL ENGINEER'S REPORT

CAMBRIDGE, August 10, 1903.

FRANCIS SHAW, ESQ.,

Chairman Committee on Wayland Water Supply.

DEAR SIR:—Agreeably to your request of June 27, 1903, I have examined the water works system of the town of Wayland now supplying the village of Cochituate with water, and obtained such information relating thereto as was possible, and beg leave to report upon the four points referred to in my letter of June 22d, 1903, as follows:

First. "As to the present capacity of the works and any suggested means for increasing the supply."

In the report of the Engineer made at the time the works were constructed, dated March 1, 1879, the area of the water-shed contributing to the supply is given as 425 acres. In the absence of any other data I have used this figure in the calculations. For many years the City of Boston has kept accurate measurements of the amount of water actually flowing off from the water-sheds of the different sources of its water supply, the "yield" or "run off" as it is called. These measurements have now been continued so long as to be an excellent guide as to what yield or run off may be expected from a similar area in this vicinity.

It has been found, however, that as the area of the water-shed diminishes in size, the yield or run off per square mile diminishes, particularly in the dry months of the year. Observations on small areas of less than one square mile seem to

show that not over 75 percent of the Sudbury River yield can be expected on small areas.

It is also a well known fact that it is not the yield of a wet or even an average year which fixes the capacity of a supply, but the yield during the *dry season of the dryest year*, such seasons as, for instance, 1880, 1883 and 1899.

The size of the reservoir has also an important effect on the capacity of a works, as from it, in the dry season, may be drawn the surplus water stored during periods of rains. The total capacity of the reservoir is given in the report already referred to as 16,000,000 gallons. 12,000,000 gallons of this is contained in the upper five feet. Below this point it is not likely that the water would be suitable for use. Of this 12,000,000 also, over 3,000,000 gallons is contained in the basin above the filter dyke or dam which should be eliminated from the supply, as will be explained further on. This leaves the available storage as 9,000,000 gallons. A daily consumption of 120,000 gallons for a year like 1883 would exhaust this storage, and is about the measure of the capacity of the works at the present time. This would seem to be confirmed by the experience of the summer of 1899 when the reservoir was nearly emptied. This would provide for a consumption of 60 gallons daily per capita for a population of 2,000 people, as shown by table "A." The population of the town of Wayland is given in the Census reports for 1900 as 2,303 for that year, a large proportion of which is located in the village of Cochituate.

As to any means of increasing the supply from this source. This could only be done by raising the dam and so increasing the storage. The shores about the main or lower basins are, at its upper end, low and flat. The large spring on the land of Mr. Rice is only 1.70 feet above the present water level in the reservoir, and any increase in the height of the water would overflow areas of swampy land, making a condition of which too much already exists. If the upper basin were raised as is suggested further on, it is possible that at some seasons of the year this water might be fit for use, particularly during the dry time when the water is said to be at its best. If this should

prove to be the case it would increase the storage capacity about 5,000,000 gallons, or over 50 per cent., and would raise the capacity of the works to 150,000 daily, as is shown by the table "B."

Second. "As to the present quality of the supply and any suggested means for improving it."

An examination of the water-shed shows that the danger from general sewage contamination is very slight. While the chemical analyses show rather large quantities of "chlorine" and albuminoid ammonia," these cannot be due to sewage pollution. The only house from which danger might be likely to come is that of Mr. Fiske at the Reservoir. Great precaution should be taken here that in a case of typhoid fever or similar disease no contamination could possibly enter the water supply. The principal objection to the water seems to be its high color and at times disagreeable taste. The main cause of the high color and bad taste in the water seems to be the vegetable matter derived from the low swampy land through which some of the water has to pass. This is particularly true of the west brook discharging into the upper basin, which comes through a large swamp just before entering the basin. A recent analysis, made at my request by the State Board of Health, shows this water to be much higher in color than other water from points in the basin. See Table "D." If the basin were of size and depth sufficient to retain the water a good length of time, it would undoubtedly improve both in color and in quality by sedimentation and bleaching.

The water for consumption is drawn, not direct from the reservoir, but from a filter gallery in the ground below the bottom. It is a curious fact that this filter now seems to have lost its efficiency as, while in 1890 and 1891 it removed about one-half the color, since 1897 it seems to be removing but little, as is shown by the Table "C."

The present level of the water in the basin seems to be higher than was originally intended, as the overflow at the wasteway is raised some six or eight inches. While this in-

creases the amount of water held in storage, it also increases the amount of shallow flowed land on the margin of the basin and also places the water level dangerously near the top of the dam. *The level of the water should be restored to its original height, and the low muddy shores at the upper end of the main basin improved by excavating the mud and raising the shores, facing the slopes with clean gravel.*

Two methods of improving the quality of the water coming from the west brook are feasible. The dyke now partially separating the upper from the main basin could be finished so as to completely prevent the water in this basin reaching the lower or main basin. The swamp through which the water comes to the basin could then be improved by carrying a drainage ditch along on the edge of the swamp near the margin of the hard land. The purpose of this ditch would be to intercept the water flowing from the upland on to the swamp and carry it directly to the basin, not allowing it to stand on the swamp and obtain its high color and large amount of vegetable impurities as it does at present. A considerable improvement in the quality of the water should follow this treatment. A new ditch connecting this brook, before it enters the basin, with the brook now entering the main basin near the highway could then be dug and the water turned directly into it, eliminating thus the shallow upper basin from the supply entirely.

Or, the dyke could be completed and made higher so as to raise the water in the upper basin about three feet, increasing by this the storage capacity about 5,000,000 gallons, and the depth of water three feet. From this dyke or dam a pipe 14 inches in diameter could be laid along the bottom of the reservoir through the main dam and discharging below into the wasteway. Through this pipe the water of the upper basin could be discharged below the dam, or if at certain seasons of the year it should be found desirable and fit, it could be turned into the lower basin and used. This would probably occur during the summer, when the need would be greatest Also a connection could be made at the lower end with the pipe supplying water to the turbine water wheel used to increase the

water pressure for fire purposes, and the inferior water used for power, saving that of better quality for domestic use.

The heavy foliage and brush should all be cut away from the shore line for a distance of at least 50 feet, so that leaves and vegetable matter may not be carried into the basin.

Third. "As to any other source of supply."

From what has been said in the first section of this report it seems plain that the capacity of the works, as now constructed, has been reached. The increased storage capacity provided by the carrying out of this plan would augment the daily capacity of the works and so prolong its life, as shown by Table "B."

There are other available sources of supply within the town which could undoubtedly be made use of; such as water from Cochituate Lake, from wells near Sudbury River, from some brook, or perhaps from the aqueduct of the Metropolitan Water Supply. The disadvantage of all these sources is that the water would have to be pumped to a reservoir, and so, of course, the annual cost of operation and maintenance would be higher than if it were obtained by gravity, as is now done. While the present works cannot be expected to yield in a dry year but about 120,000 gallons daily in the dry season, it should be remembered that this occurs but seldom and is continued for only a few months. During the rest of the time the supply should be ample for many years. For this reason it would seem to be best to supplement the present supply with an auxiliary supply to be used only as occasion may demand. This can very readily be done by installing at or near Lake Cochituate a pumping plant, to be driven by an electric motor or gasolene engine, and pumping into the present piping system, letting the surplus water pumped flow into the Reservoir. This water can readily be obtained direct from the lake or from driven wells on the margin, it being understood that the town now has the right to take water from this source. Such a plant has been found inexpensive to install, economical to operate, and suffers little from depreciation due to intermittent running.

Fourth. "As to any extension of the distribution system to the centre of the town so as to supply takers there."

Under the present conditions of quality and capacity of supply, any considerable extension of the distribution system, and so increase in consumption of water, could not be recommended. If, however, an auxiliary supply is provided, as has already been suggested, there is no reason why the system could not be carried to the centre of the town, a distance of about three miles from the present pipes. I have been unable to obtain a plan or profile of the highway connecting the two localities but there seems to be no physical difficulty in obtaining a feasible route on which to lay a main pipe to supply the inhabitants of the centre of the town. When this is done the pipe laid should be of ample size, as it has generally been found that the demand for a town water exceeds the first expectation, even if the rates are somewhat high.

RECOMMENDATIONS.

My recommendations for work to be undertaken at once are as follows.

First. That the filter dam or dyke now extending nearly across the basin be raised and extended so as to hold the water in the upper basin three feet higher than at present. [This will necessitate the construction of a short marginal dyke so that the water will not flow on to the land of Mr. Francis Shaw] *or what would be better still, the raising of his roadway to take the place of the dyke.*

Second. That a pipe 14 inches in diameter be laid from this dyke to and through the main dam to carry the water from the upper basin either into the lower basin or below it at will.

Third. That the shallow flowage at the upper end of the lower basin be improved by excavating from the bottom and sides and raising the shores.

Fourth. That the shores and margin of the reservoir be stripped, and kept free, of all brush, trees and foliage, for a distance of 50 feet from the water line if possible.

These several improvements are shown upon a plan which accompanies this report.

An approximate estimate of the cost of the work here recommended is as follows:

Approximate Estimate

Raising and enlarging dyke	$650 00
Raising roadway in Mr. Shaw's land . . .	300 00
Clearing 3 acres land of wood at upper end basin	300 00
14-inch cast iron pipe from dyke to below main dam about 1050 feet long with gates and fittings .	2500 00
Excavating about 2500 cubic yards at upper end of main basin	750 00
	$4500 00
Add for contingencies 10 per cent. . . .	450 00
Total	$4950 00

If it is not thought best to connect the 14-inch pipe with the turbine water-wheel in the gate house a saving of about $300 could be made on the above estimate. The usefulness of this connection will depend upon the number of fires which occur and the consequent amount of water used for power.

Very respectfully,

L. M. HASTINGS,

Civil and Consulting Engineer.

OFFICIAL REPORTS

OF THE

Town of Wayland

FOR ITS

One Hundred and Twenty-Fourth Municipal Year

FROM

FEBRUARY 28, 1903, TO MARCH 1, 1904

CAMBRIDGE, MASS.
PRINTED BY J. FRANK FACEY
1904

ANNUAL TOWN MEETING, MARCH 28, 1904.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, SS.

To either of the Constables of the Town of Wayland in said County, Greeting:

In the name of the Commonwealth of Massachusetts you are required to notify and warn the inhabitants of said Town qualified to vote in Town elections and in Town affairs to meet at the Town Hall on Monday, March 28, 1904, at 6 o'clock in the forenoon, there and then to act on the following articles, viz:

ARTICLE 1. To choose a Moderator.

ART. 2. To choose a Town Clerk, Treasurer, Collector of Taxes, Auditor, Highway Surveyor, three Selectmen, Treasurer of the Library Funds, Tree Warden, seven Constables, all for one

year, one Member of School Committee, one Sinking Fund Commissioner, one Assessor, one Water Commissioner, one Overseer of the Poor, two Trustees of the Public Library, one Member of the Board of Health, all for three years. Also to answer the following question, "Shall licenses for the sale of intoxicating liquors be granted in the Town of Wayland for the year ensuing?"

All names of candidates for the offices aforesaid and the said question must appear upon the official ballot, and be voted for in accordance with chapter 11 of the Revised Laws of Massachusetts. For the purposes specified in this article the polls will be opened immediately after the election of a Moderator, and will remain open continuously till 1.30 P. M., when they may be closed.

ART. 3. To choose all other necessary Town Officers, Agents, and Committees, and hear reports of Town Officers, Trustees, Agents and Committees, and act thereon.

ART. 4. To grant and appropriate money for any and all necessary Town purposes and order the same to be assessed, to do or act.

ART. 5. To authorize the Selectmen to consult counsel on important Town cases.

ART. 6. To see if the Town will accept the list of jurors as prepared by the Selectmen.

ART. 7. To appropriate the money received from the County Treasurer for dog licenses.

ART. 8. To see if the Town will authorize its Treasurer to borrow money temporarily in anticipation of taxes for the municipal year ending February 28, 1905, and if so, how much?

ART. 9. To see if the Town will appropriate a sum of money to install a new furnace and heating system for the Town Hall, or do or act.

ART. 10. To see if the Town will appropriate two hundred dollars to complete the renovation of the Town Hall, or do or act.

ART. 11. To see if the Town will appropriate five hundred dollars to be expended on the highways north of Gleason Street, "so called," or do or act.

ART. 12. To see if the Town will accept in trust the sum of two hundred dollars from E. Willard Roby, the income of which is to be expended for the perpetual care of his half of the cemetery lot, known as the W. G. Roby lot, or do or act.

ART. 13. To see if the Town will instruct its Selectmen to cause a suitable drain to be placed in the highway opposite the estates of Henry Bemis and Edward Grover, or do or act.

ART. 14. To see if the Town will increase the salary of the Auditor from fifty dollars to one hundred dollars, or do or act.

ART. 15. To see if the Town will vote to pay the premium on the official bonds of its officers, or do or act.

ART. 16. To see if the Town will adopt Section 341 of Chapter 11 of the Revised Laws, relative to electing Road Commissioners, or do or act.

ART. 17. To see if the Town will appropriate annually the sum of two hundred and fifty dollars to support a free bed in the Waltham Hospital, or do or act.

ART. 18. To see if the Town will accept chapter 346, Acts of 1902, relative to electing a Moderator for the term of one year.

And you are required to serve this warrant by posting attested copies thereof at each of the Post Offices and Town House in said Town seven days at least before the appointed time for holding said meeting. Hereof fail not and make due return of this warrant with your doings thereon to the Town Clerk, on or before Saturday, March 26, current.

Given under our hands this tenth day of March in the year of year of our Lord one thousand nine hundred and four.

ALBION F. PARMENTER,
ELIJAH H. ATWOOD,
WILLIAM S. LOVELL,

REPORT OF SELECTMEN.

WAYLAND, February 29, 1904.

We have made the following appointments as required by law:

Engineers of Fire Department. Edwin W. Marston, Charles E Coakley, Arthur J. Ricker.

Inspector of Animals. Thomas Bryant, V. S.

Registrar of Voters. Theodore L. Sawin.

Auctioneers. George E. Sherman, Jacob Reeves.

Public Weighers. Albert L. Adams, George B. Howe, Lorenzo K. Lovell.

Fish and Game Warden. John J. Erwin.

Burial Agent for Indigent Soldiers. Damon L. Veasey.

Election Officers. Precinct 1. Warden, E. F. Lee; Clerk, William Stearns; Inspectors, H. W. Parmenter, J. I. Bryden, C. H. Richardson, C. E. Quinn. *Precinct 2.* Warden, B. M. Bailey, Clerk, C. S. Williams, Inspectors, A. C. Bryant, William Lacoutre, P. D. Gorman, F. P. Hannon.

Janitor of Hall. John E. Linnehan.

Police Officers. Frank X. Lupien, John B. McManus, James Linnehan, M. W. Hynes, O. C. Ewing, P. W. Meader, E. F. Lawrence.

Special Police Officers. C. W. Ellms, I. W. Currier, A. B. Neal, William L. King, A. A. Norris, J. E. Linnehan, W. R. Place, Ralph Neal, A. S. Carson.

Sealer of Weights and Measures. Daniel Brackett.

Mr. Walter B. Henderson was appointed to fill the vacancy on the Board of Sinking Fund Commissioners caused by the resignation of Mr. Henry D. Parmenter.

The electric lights have been extended from King Street to Fiske's Corner in Cochituate Village.

A loop of twenty lights has been extended in Wayland Centre.

According to the vote of the town we have purchased a bank of gravel of Mrs. Edgar B. Loker at the cost of $625. As no provision was made for payment of the gravel the same was drawn from the incidental account, causing an overdraft in that account of $320.09.

The repairs on Main Street, Cochituate, were interrupted by the early severe cold weather; the contract was awarded to Mr. Andrew Allen of Wellesley, also a contract to concrete the sidewalks. The work will be resumed as early as possible and will be completed on or before May first.

The renovating of Town Hall building is being done and will be completed as soon as weather permits.

Respectfully submitted,

THEODORE S. SHERMAN, *Chairman*,
DANIEL W. RICKER, *Clerk*,
DAVID P. W. LOKER.

REPORT OF TRUSTEES OF PUBLIC LIBRARY.

In reviewing the administration of the Library for the year past, the Trustees note the appreciation and pride of our citizens in the institution, which have been shown in many ways. This has been manifested not only by use of its privileges, but by generous gifts tending to increase its efficiency and usefulness.

We have received from Mrs. William F. Matchett, whose interest and liberality the Library has before known, a mounted terrestrial globe, which gives our Reading Room a necessary adjunct of a well appointed library, the value of which will be apparent to readers and students.

A memorial to a beloved wife has been made by a citizen in the form of a fund, to bear her name, the income of which is to be used forever for the purchase of books.

A bequest of Mrs. Sarah M. Parsons, a niece of our late honored townswoman, Mrs. Lydia Maria Child, has been received, and has been applied by the Trustees to the purchase of standard works, to replace in some cases editions which, by long usage, have become unfit for circulation.

A gift from the Committee having in charge the Lecture Course last winter, of one-half of the proceeds, enabled us to buy some valuable works of reference.

Some sixty volumes have been presented by citizens, during the year, besides the usual receipts of State and Government reports, and fourteen volumes from the New England Historic Genælogical

Society, all excellently chosen and valuable acquisitions. Numerous files of current periodicals have also been acknowledged.

The gift of a die for printing the title of the Library on note sheets for use in the Secretary's department, and of two photographs of the Library building for the Massachusetts Library Exhibit at the St. Louis Exposition, are to be noted.

Our collection of minerals has been arranged under glass, classified and labelled.

A mass of pamphets, periodicals and magazines, the accumulation of many years, has been sorted and arranged under titles in forty-five (45) files, available for reference, in the basement.

At the annual examination, all books in the Library were accounted for, with the exception of two juvenile books.

The advantages of the use of electric light during the year have been apparent in every way, and a source of apprehension of possible danger and loss removed.

It is not perhaps generally known that books of reference of the Boston Public Library are available to our citizens through our Library. Such books may be obtained by application to our Librarian.

During the coming year an outlay will be necessary for repairs, notably in the basement, where much of the wainscot and other woodwork has been seriously affected by dry rot. Other repairs tending to the perservation of building and grounds are necessary.

In the Library are a number of old books of great interest to the town and to students of Americana, which together with various manuscripts, pamphlets and other documents of historical value, local and otherwise, are not now arranged or displayed to the best advantage. The Trustees have considered the propriety of these being withdrawn from circulation, and gathered in a proper cabinet, labelled as to their history or interest, and displayed under glass.

It is unnecessary to emphasize the value of this institution, in every way, to the Town of Wayland. As now maintained, the First Free Public Library in Massachusetts stands a worthy repre-

sentative of the idea of its founders, and as a measure of the value placed by our citizens upon intelligence and knowledge.

The Librarian's Report to the Trustees is herewith submitted.

ARTHUR G. BENNETT, *Chairman*,
A. WAYLAND CUTTING, *Secretary*,
CHESTER B. WILLIAMS,
FRANCIS SHAW,
LESTER R. GERALD,
CHARLES F. RICHARDSON,
Trustees.

LIBRARIAN'S REPORT.

To the Trustees of the Public Library:

The Librarian submits the following report for the year ending January 31, 1904.

The Surveyor of Highways would call attention to the fact that the department has constructed protection rails along the highways where most needed, but that there yet remains some new work to be done the coming year, as well as some repairing on the old rails. The guide post and street signs have also been put in excellent condition.

WILLIAM C. NEAL.

February 29, 1904.

REPORT OF THE ENGINEERS OF FIRE DEPARTMENT.

This year the Engineers were obliged to extend the engine house drain some one hundred (100) feet, at an expense of $19.71; also owing to the great amount of snow this winter, making it impossible to get the department out on wheels, we made a combination hook and ladder wagon on runners at an expense of $34.16.

The fire department and alarm are in good condition, and as soon as the Electric Light Company complete resetting the new poles, we shall remove our wires to the same.

1903.

May	1.	Received from Selectmen, Firemen's pay	$367 62

FINANCE COMMITTEE.

The Finance Committee respectfully submits the following and recommends that the same be appropriated and adopted, viz.:

Incidental Fund	$2,000 00
To finish repairs on Town Hall	200 00
Support of poor	2,000 00
Abatement of taxes	200 00
School salaries and fuel	8,000 00
School supplies	600 00
Transportation of scholars	1,200 00
Repairs on school buildings	100 00
Superintendent of Schools	375 00
School incidentals	100 00
Overdrafts	830 43
Salaries	1,300 00
Electric lights	775 00
Fire department	300 00
Hydrants	384 00
Highways	2,000 00
Collector of Taxes	350 00
Library	800 00
Library repairs	100 00
Lakeview Cemetery	50 00
North and Center Cemeteries	50 00
School house loan	1,100 00
Highway loan	400 00
Memorial Day, in addition to unexpended balance	50 00
Sinking Fund	1,408 80
Total	$24,673 23

We recommend that the sum of four hundred and eighty dollars be transferred from water rates to pay interest on water bonds.

That the Selectmen be authorized to draw from the Contingent Fund such sums of money as may be necessary, not exceeding five hundred dollars, for assisting needy soldiers and their families.

That the Selectmen be authorized to draw from the Contingent Fund a sum not exceeding three hundred and fifty dollars for the use of the Board of Health.

That the sum of three thousand dollars be appropriated for interest on town debt, to be taken from Contingent Fund. That the money for removing snow be drawn from Contingent Fund.

PAUL T. DRAPER, *Chairman*,
L. K. LOVELL,
DANIEL D. GRIFFIN,
EDWARD A. ATWOOD,
CLARENCE S. WILLIAMS, *Clerk*

Acting Superintendent of Schools

REPORT OF SCHOOL COMMITTEE.

To the Citizens of the Town of Wayland: —

Your committee respectfully submits the following report: —

For the Lokerville School a new fence has been built, the schoolroom walls have been retinted, the stoves and piping have been repaired, and twenty-five new adjustable chairs and desks have been installed. This new furniture is available toward furnishing the future new Cochituate School building.

At the Cochituate School the steps, bulkhead, furniture, piping, and outbuildings have been repaired. A new outbuilding should be erected at least thirty feet distant from the school building, in the vacant lot at the rear of the school.

The need of a new schoolhouse at Cochituate is generally acknowledged, but before estimates can be made for any building it is necessary to know where that building is to be situated. The settlement of the location and the purchase of a lot should be the first steps toward a new building. We strongly advise that a committee be appointed to select and purchase a lot of land for the erection of a new school building for Cochituate. There is one thousand dollars now in the treasury available for this purpose. With the lot decided upon an intelligent study for most economically meeting the requirements for a

modern school building can be begun. We also advise the establishment of a fund toward the erection of a new school building; we suggest that each year an amount be raised toward this object, and that a committee be appointed to hold and invest the moneys of this fund.

At the Centre School the rear fence has been put on the line, the expense of this work and of repairing and repainting the entire fence has been borne by Mr. Francis Shaw; Mr. Shaw has also furnished new linings for the four furnaces. The expansion tank on the hot water system, which has been in the open attic and the cause of damaged ceilings yearly from bursting pipes, has been placed overhead in the chemical laboratory, where freezing should not occur.

In the High School hall last winter a course of lectures for the benefit of the High School and Public Libraries was given; this course netted thirty-four dollars and twenty-one cents for the High School library. Our acknowledgments are made to Mr. Beach and Mr. Rockwood for this successful effort in our behalf.

New music books for the High School have been presented by Mr. Shaw, whose interest in our schools has been faithful and long continued.

We desire to call your attention to the revised course of study for the High School.

A "course of study for a high school of two or three teachers" was published in the Sixty-Sixth Annual Report of the Board of Education. (pp. 297–299.) This course, revised and adapted by an agent of the Board of Education, while not entirely satisfactory to all the members, was finally adopted, (with the exception of the course in trigonometry.)

EXTRACT FROM THE RECORDS

OF THE

SCHOOL COMMITTEE.

Voted:—That we adopt the High School Course as prepared by Mr. MacDonald, with the exception of the Course in Trigonometry, subject to such changes as shall hereafter be found to be desirable.

Voted:—That a clause be added as a foot-note to the course of study that any pupil preparing to take examinations to an institution of higher learning shall receive such additional attention as shall enable him to take such examinations.

We especially call your attention to the fact that "upon written application by parent or guardian to the School Committee, Superintendent or Principal, any pupil desiring to prepare for entrance examinations to a higher institution of learning will be given instruction in any additional studies which may be necessary." We especially call your attention to the fact that under this course pupils are to be thoroughly prepared for college examinations.

No new course can be entirely satisfactory in the first year of its adoption, and while the present course may not have been as satisfactory as we had expected during its trial year we must call to your attention the fact that no course can be really successful without the hearty efforts of all persons connected with the school work.

1903.

Course of Study for the Wayland High School.

First Year.

Subjects.	Recitation Periods.	Periods without Recitations.
Required: —		
Algebra	4	—
Elementary Physics, thirty weeks; Elementary Chemistry, ten weeks	4	—
Ancient History	3	1
Composition	1	—
Total of required periods	12	1
Elective: —		
Latin	4	1
Drawing	1	1
Bookkeeping	3	2
Stenography	3	2

Each pupil to elect at least seven periods, including periods without recitations.

Second Year.

Subjects.	Recitation Periods.	Periods without Recitations.
REQUIRED: —		
English Literature	2	1
English History	3	1
Geometry	4	—
Grammar and Composition	1	—
Total of required periods	10	2
ELECTIVE: —		
Latin	3	2
French	4	—
Elementary Chemistry, twenty weeks; Physiology and Hygiene, twenty weeks	3	2
Bookkeeping, twenty weeks; Commercial Geography, twenty weeks	3	1
Typewriting	3	2

Each pupil to elect at least nine periods, including periods without recitations.

In Geometry the propositions of the regular syllabus should be completed in order, and the exercises of the several books should then be taken by way of a general review. Much time will be saved in this way.

Third Year.

Subjects.	Recitation Periods.	Periods without Recitations.
REQUIRED: —		
English Literature	3	—
United States History, twenty-five weeks; Civil Government, fifteen weeks	3	—
Composition and Grammar	1	—
Total of required periods	7	0
ELECTIVE: —		
Latin	3	2
French	3	1
*German	3	1

* At the request of the pupils the School Committee added German to the course in the third and fourth years.

Botany, twenty weeks; Geology, twenty weeks	3	1
Commercial Arithmetic	3	1
Geometry (review), twenty weeks	3	1

Each pupil to elect at least twelve periods, including periods without recitatlons.

Fourth Year.

Subjects.	Recitation Periods.	Periods without Recitations.
REQUIRED: —		
Composition and Grammar	1	1
Total of required periods	1	1
ELECTIVE: —		
English Literature	3	2
Latin	3	2
French	3	1
*German	3	1
Advanced Physics, twenty weeks; Astronomy, twenty weeks	2	2
Solid Geometry, twenty weeks; Advanced Algebra, twenty weeks	3	1
Drawing	2	1
Any subject of previous years not taken	—	—
Advanced Chemistry	2	2

Each pupil to elect at least eighteen periods, including periods without recitations.

Upon written application by parent or guardian to the School Committee, Superintendent or Principal, any pupil desiring to prepare for entrance examinations to a higher institution of learning will be given instruction in any additional studies which may be necessary.

---

* At the request of the pupils the School Committee added German to the course in the third and fourth years.

We call your attention to the report of the Superintendent, Mr. Rufus E. Corlew, who has prepared a detailed account of the condition and needs of our schools.

We regret to announce the resignation of Mr. Corlew, to take effect at the end of the year. Mr. Corlew has been granted leave of absence, and has been allowed to appoint as assistant Mr. Joseph T. Corlew for the remainder of his term.

We desire to express our appreciation of the work of Mr. Corlew during the past year, of his courteous co-operation, and his constant, earnest endeavor in behalf of our schools.

FRANK I. COOPER,
ISAAC DAMON,
EDWARD M. BENNETT.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Committee of Wayland:

Gentlemen: — I have the honor to present to you my sixth which is the ninth in the series of annual reports.

The object of these reports is to give to the townspeople, from year to year, an account of the condition and needs of the schools.

Your attention is called to the following points:

1. Statistics.
2. Decrease in the number of pupils enrolled in the first and second grades in the Cochituate School and in the fifth grade in the Lokerville School.
3. Completion of the commercial course in the High School.
4. Medical inspection.
5. New building in Cochituate.
6. School savings bank.
7. Sending a teacher to the St. Louis Exposition and N. E. A
8. Drawing contests.
9. Increase of teachers' salaries.

I.

The statistics, as usual, are placed after this report as are the reports of the special teachers.

II.

There has been a noticeable falling in the first and second grades of the Cochituate School and in the fifth grade of the Lokerville School due, no doubt, to the removal of the manufactory of Mr. Noble Griffin.

III.

There were given in the report for 1903 five recommendations, viz.:

1. A new building for Cochituate.
2. Medical inspection
3. A general educational association.
4. New seats and desks in the Lokerville fifth grade.
5. A commercial course in the High School.

The one regarding the furniture in Lokerville was carried out and adjustable seats and desks were put in, thereby adding not only to the appearance of the room but also ministering to the health and comfort of the children.

It is more essential that pupils should have well fitting seats and desks than that they should have properly fitting clothing.

Dr. Barry says "near sightedness, round shoulders, curvature of the spine, difficulty of respiration, distortion of the upper part of the body, pains and tingling sensations in the feet result from ill-fitting school furniture."

The fifth suggestion was partially carried out and classes in book-keeping, commercial arithmetic and stenography were started.

The course should be completed by the addition of typewriting, commercial geography, and commercial law.

IV.

Many pupils graduate from our schools with a lower standing than those whose mental equals, nay, superiors, they are, because they are handicapped by defective eyesight or hearing or some disease of the nose or throat.

There are probably pupils in school now who have the reputation for being backward and dull not because of a lack of mental ability but from some physical weakness.

If there are such they have an absolute right to have any defect from which they may be suffering remedied so that they may take their rightful places among their classmates.

Nearly all of these affections could be readily cured if they were known and they would be known if the pupils were regularly examined by a physician appointed by the school committee.

The plan is worthy of very careful consideration at least.

What good reason is there why the children should not receive the care and attention that is rightfully theirs?

That you may fully realize the extent to which pupils in the schools suffer from one or more of the above causes the following statistics are added:

One eminent authority, Dr. Barry, says that of one thousand pupils (from eight to fifteen years of age) examined by him in their respective school rooms, thirty-three and four-tenths per cent. had defective eyesight.

Dr. Loring found that at nine years three and five-tenths per cent., at eighteen twenty per cent, and at twenty-one twenty-seven per cent suffered from shortsightedness alone.

The careful examination of the hearing of a large number of school children in one of our cities showed that sixteen per cent. had defects in one ear or the other and seven per cent. had defects in both ears.

Many cases of deafness are frequently due to enlarged tonsils or adenoid growths.

It is said that children at the age of seven or eight are more prone to show defects of hearing than those of any other age.

The nose and throat should be just as carefully watched as the eyes and ears.

This subject concerns every home and is worthy of the most careful consideration.

V.

The subject of a new building at Cochituate has been discussed for several years, and I have been informed that a sum of money has been appropriated as a nucleus but has not resulted in any thing tangible.

The following are some of the reasons why a new house is needed:

1. The present one is poorly lighted and ventilated.
2. The stairs are unfitted for either health, comfort or quickness of ascent or descent and would be dangerous in case of fire.
3. The cellar is damp during several months of the year.

4. It is located in an unhealthy place.

5. There is great difficulty in heating and keeping it warm.

Though the ill effects of poorly ventilated rooms are too well known to need any extended discussion yet it might not be amiss to quote from the opinions of authorities on this subject.

It is estimated by the New York Board of Health that forty per cent. of all deaths are attributable either directly or indirectly to bad air.

An eminent authority says, "All deaths resulting from fever are but as a drop in the ocean when compared with the number who perish from bad air."

Prof. S. H. Woodbridge of the Massachusetts Institute of Technology says, "death rates have been reduced in children's hospitals from fifty per cent. to five per cent.; in surgical wards of general hospitals, from forty-five per cent. to thirteen per cent; in army hospitals, from twenty-three per cent. to six per cent.; and in prisons, from eighty per cent. to eight per cent, by the introduction of systems of efficient ventilation."

Our own Dr. Oliver Wendell Holmes clinches the argument when he says, "a simple measure of ventilation proposed by Dr. John Clark had saved more than sixteen thousand children's lives in a single hospital."

Dr. William F. Barry of Woonsocket, R. I., says, "in vitiated air the child finds difficulty in application, is much less able to follow out a line of thought and becomes dull, fretful and irritable. There can be no question that many of the cases of headaches attributed to eye strain and too close application to study are the result of improper ventilation of our schoolrooms."

It can be readily seen that when the foul air from a damp cellar and the miasm from soggy playgrounds is added to the air of a poorly ventilated school building the state of affairs is much aggravated and the health of the school children demands that something be done.

The number of cases of discipline would be decreased at least one-half if schoolrooms were properly ventilated.

The evil results of climbing steep stairs in high buildings upon

pupils is far reaching, especially in the case of girls, and need careful consideration on the part of both teachers and parents. No schoolhouse should be more than two stories high and the stairs should have low risers, broad treadboards and frequent landings.

A school building should be so built and equipped as to minister to the health and comfort and happiness of the children.

The question is, Shall Cochituate have a new building?

VI.

Financial freedom comes through "spending less than we earn," and the teaching of thrift should be as much a part of the duty of the teacher as is arithmetic that informs us how to calculate our gains or losses.

The children should have developed in them the habit of providing for the "rainy day" and old age.

The school savings bank is one means of teaching them to provide for the future by furnishing them a place where they can put their pennies and be sure that they will not only be safe but also draw interest and later help them to get a "start in life."

The habit of saving is a more valuable one than the habit of spending every cent they get.

The establishment and carrying on of this bank will entail upon the teachers but little extra work and no expenses on the town except the cost of the bank books, which will be very small.

You will not have to go far to prove the feasibility of the plan for Natick has a school savings bank in successful operation.

VII.

That all reasonable means should be used to furnish the teachers every facility for increasing their efficiency and making their work effective is not a debatable question but a statement that you all believe to be a true one.

A means which will probably not occur again in a generation will be at hand this summer at the St. Louis Exposition.

Among the many things of special interest to teachers will be the

five acres of work done by pupils in all parts of our land and also by pupils in other lands.

There will be a chance to gain more in a few days than can be accomplished by months of travel and "visiting."

Persons will be in attendance to explain the work and give to visitors every opportunity to carefully examine the exhibits.

It would be a pity to let such a chance pass without taking advantage of it.

The following plan is proposed, viz.: that a teacher from our school be chosen by the committee to visit the Exposition at the town's expense, and when the fall term opens to give our teachers the benefit of what has been learned during the visit.

If it does not seem best to bear the whole expense a teacher might be selected by the committee of the Union District of Wayland, Sudbury and Dover and the expense be borne by the three towns.

It is to be hoped that these plans will be considered.

VIII.

Embodied in this report will be found the drawings of the pupils who were successful in the drawing contest.

There is no more important branch of study in the curriculum than drawing; besides being the best means of observation it is almost a "third hand."

The names of the successful ones will be found in Miss Stickney's report, and also the name of the person who made the final examination and selected the best ones.

The excellent work done by Miss Stickney is too well known to need any commendation from me.

IX.

In the Cochituate School there is not a teacher who taught there last year, and in one room there has been three teachers since school began in September. In the Wayland School there are but four of last year's teachers.

Everyone knows the effect upon the schools of this constant change of teachers.

Good teachers can be kept by paying them as much as they can get elsewhere and good teachers are worth just as much to our schools as they are to schools in other towns, and our children are just as deserving of first-class instruction as are those of other places.

It is only by the employment and retention of competent teachers that our schools can rank with the best in the state, for our children are "just as smart" as those in any part of the Commonwealth. "The best is none too good for us." Shall we have it?

There is no grander or more important work than the educating of our boys and girls for intelligent, honest citizenship, but to do this we must have the best teachers.

CONCLUSION.

It is my pleasant duty to extend to the teachers my hearty thanks for their painstaking work and for the manner in which they have seconded every effort to benefit the schools.

Respectfully submitted,

RUFUS E. CORLEW,
Superintendent.

REPORT OF THE SUPERVISOR OF MUSIC.

To the Superintendent of Schools:—

I herewith submit the following as my report of the music in the public schools of Wayland.

The Natural Music Charts and Readers which were used with so much success last year have been used with just as satisfactory results this year. The same general plan of work which was adopted when the new books were introduced has been followed this year.

The exercises and songs in these books are selected from the works of the very best composers, so they tend to make the pupils familiar with good music and cultivate in them a taste for that which is good.

In the High School the music has been conducted in a different way from previous years. The school sings only in the hour that I am there each week. Instead of exercises and songs from the books which have been used there so long, selections have been made from the new book called "Folk Songs and Part Songs." In addition to these, several songs by famous composers have been studied. After these songs have been studied for a few weeks, a program is arranged for some morning. In addition to the songs by the school on these occasions there have been used vocal and instrumental solos by the same composer. Aside from these there is read by one of the pupils a brief sketch of the life of the musician.

The first program of this kind was given in November when two of the songs sung by the school were Scotch songs, the words of which were written by Robert Burns. Miss Carter read a sketch of his life. The rest of the hour was devoted to the works of Men-

delssohn. The school sang several choruses and Miss Edith Thayer read a paper which she had prepared, containing an interesting account of his life; she also played the Mendelssohn "Wedding March." Miss Mabel Small played one of Mendelssohn's "Songs without Words," and I sang a selection from Mendelssohn's oratorio of Elijah. The next program was given the last day of the fall term, December 18. At this time Charles Gounod was the composer considered. The school sang several of his compositions and Frank McKenna read a sketch of his life which he had prepared. Miss Pearle Chaffee played the "Soldiers' Chorus," from "Faust," and Miss Elizabeth Poole sang "The Light from Heaven," with violin obligato, which was played by Joseph Lyons.

It is the plan to have several programs like these during the year, each time time taking the works of some special composer. In this way the pupil will become familiar with the lives and works of the best musicians.

I wish to express to the teachers my appreciation of the work they have done, and I thank the committee for their generosity in purchasing the music for the High School which has made the work so much more interesting there. I also wish to thank the Superintendent for his kindly interest and ready support in the work.

Respectfully submitted,

ELLEN HOWE BARTLETT,

Supervisor.

REPORT OF THE SUPERVISOR OF DRAWING.

Mr. Rufus E. Corlew:

My Dear Sir:—Much has been said on the subject of art training in the public schools, and parents are beginning to realize the benefits children derive from this training. The aim is not to make artists of the boys and girls but to cultivate good taste. By repeated efforts the child is learning to appreciate the work of others as well as developing his imagination and training his hand and eye.

It is preparing him to go out into the world with a broader, fuller mind, to be able not only to help himself but to aid others.

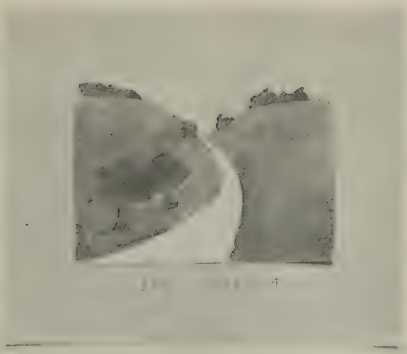
The country becomes what the people make it, then it depends upon these very people to influence the child in gaining "a good and generous soul, a free mind open to all large thought."

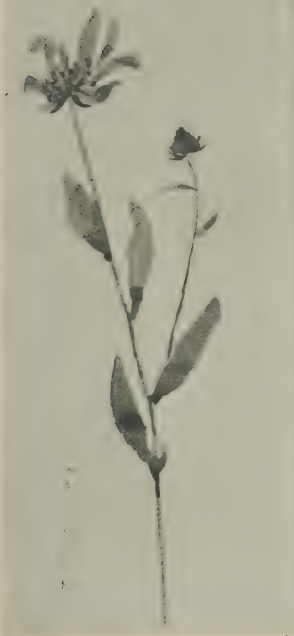
The work in drawing planned for the fall term of the year included nature drawing and color, that is drawing from plant and vegetable life, landscape composition and the study of color found in nature.

Object drawing, pose drawing and illustrated composition comprised the mid-winter work. In the early spring the mechanical work, together with the study of the different styles of architecture will be studied to prepare for the constructive and decorative work. Every subject taught during the year's work is closely related to the subjects, construction and decoration.

Where possible purely creative work has been introduced, by that is meant the designing and making of things appropriate for the seasons and holidays as Thanksgiving, Christmas, New Year, etc.

I would like to mention here the basket weaving class which has been formed in Cochituate. It is small in number, including but a few of the older pupils. Their work, which is done outside of school hours, is designed and worked out by themselves. I believe





Reproductions of Drawings by Pupils of the Wayland Schools.

Grade 7. Isabel Mahoney, Wayland.

Grade 8. Francis Ames, Cochituate.

Grade 9. James O'Brien, Wayland.

High School. Martha Bent, Cochituate.

that this raffia and reed work could be introduced to advantage in the schoolroom.

In the High School the work in the mechanical drawing division has consisted of simple geometric problems, working drawings of type forms and problems which involved the subject of projection.

In the free-hand class the course has included sketching in water color, pencil and pen and ink from nature and still life composition. The subject of design will be studied in the spring, together with the nature work. Better results could be obtained if more time was given for the drawing period. I would recommend that one whole hour a week, if not more time, be devoted to the work in drawing in the High School.

The ten drawings reproduced in the report give some idea of the work carried on in the schools during the fall and winter term. Mrs. C. F. Campbell, Boston, former instructor at the Massachusetts Normal Art School, kindly consented to select the drawings. The aim was to choose those drawings which best represented the different phases of work and which would be most satisfactory when reproduced.

The names of the pupils whose drawings were chosen are as follows:—

Grade 1. Arthur Dudley, Wayland.
Grade 2. Isabelle Tracy, Wayland.
Grade 3. Lillian Colorier, Cochituate.
Grade 4. Hilda Reeves, Wayland.
Grade 5. Lucy Gladu, Cochituate.
Grade 6. Wilbur Gorman, Cochituate.
Grade 7. Isabel Mahoney, Wayland.
Grade 8. Francis Ames, Cochituate.
Grade 9. James O'Brien, Wayland.
First year in High School. Martha Bent, Cochituate.

In conclusion I desire to express my thanks to the Superintendent, the School Board and the teachers for their co-operation during my term as Supervisor of Drawing.

Respectfully submitted,

MARY J. STICKNEY.

APPENDIX.

REPORTS OF TRUANT OFFICERS.

COCHITUATE, MASS., February 26, 1904.

TO MR. R. E. CORLEW, SUPERINTENDENT OF SCHOOLS: —

I present the following report as Truant Officer for the year ending March 1, 1904.

Number of Truants	3
Number of Investigations	8
Total	11

Respectfully submitted,

J. F. BURKE,
Truant Officer.

WAYLAND HIGH SCHOOL, MASS., February 26, 1904.

MR. R. E. CORLEW, SUPERINTENDENT OF SCHOOLS:—

SIR: I have had two cases of absence to investigate during the past school year, and found no cases of truancy.

Respectfully,

J. C. VINCENT,
Truant Officer.

SCHOOL CALENDAR, 1904-1905.

HIGH SCHOOL.

Fall term begins Tuesday, September 6, 1904,
Fall term ends Friday, December 23, 1904.

CHRISTMAS VACATION.

Winter term begins Monday, January 2, 1905.
Winter term ends Friday, March 24, 1905.

EASTER VACATION.

Spring term begins Monday, April 3, 1905.
Spring term ends Friday, June 23, 1905.

PRIMARY AND GRAMMAR SCHOOLS.

Fall term begins Monday, September 12, 1904.
Fall term ends Friday, December 23, 1904.

CHRISTMAS VACATION.

Winter term begins Monday, January 2, 1905.
Winter term ends Friday, March 24, 1905.

EASTER VACATION.

Spring term begins Monday, April 3, 1905.
Spring term ends Friday, June 9, 1905.

SCHOOL HOURS.

WAYLAND: 9 A. M. to 2.30 P. M. One-half hour intermission for lunch.

COCHITUATE: 9 A. M. to 11.30 A. M.
1 P. M. to 3.45 P. M.

LOKERVILLE: 9 A. M. to 11.30 A. M.
1 P. M. to 3.45 P. M.
Winter term 9 A. M. to 2.30 P. M. One-half hour intermission for lunch.

Holidays occur on every Saturday; Labor Lay; from noon of Wednesday preceding Thanksgiving until the following Monday; Washington's Birthday; Patriots' Day and Memorial Day.

VISITING DAYS FOR TEACHERS.

Monday, October 10.
Friday, February 3.
Monday, May 1.

GENERAL SUMMARY.

Population of town	2,303
Valuation of town May 1, 1900	
Valuation of schoolhouses and lots	$31,000.00
Number of schools	13
Length of school year in weeks for primary and grammar departments	37
Length of school year in weeks for high school department	40
Number of regular teachers	15
Number of teachers employed during the year	25
Number of special teachers	3
Number of special teachers employed during the year	3
Number of children in town between 5 and 15 years of age, according to the school census of September, 1903	325
Number of children in town between 7 and 14 years of age, according to the school census of September, 1903	258
Number of different pupils of all ages enrolled in all the schools during the year	454
Number of different pupils in all the schools under 5 years of age	4
Number of different pupils enrolled in all the schools between 5 and 15 years of age	391
Number of different pupils enrolled in all the schools between 7 and 14 years of age	290
Number of different pupils enrolled in all the schools over 15 years of age	54
Total average membership for the year	378.1
Total average attendance for the year	353.1
Per cent. of attendance	93.3

OFFICIAL REPORTS

OF THE

Town of Wayland

FOR ITS

One Hundred and Twenty-Fifth Municipal Year

FROM

FEBRUARY 29, 1904, TO MARCH 1, 1905

CAMBRIDGE, MASS.
PRINTED BY J. FRANK FACEY
1905

ANNUAL TOWN MEETING, MARCH 27, 1905

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

MIDDLESEX, SS.

To either of the Constables of the Town of Wayland in said County. Greeting:

In the name of the Commonwealth of Massachusetts you are required to notify and warn the inhabitants of said town qualified to vote in Town elections and in Town affairs to meet at the Town Hall on Monday, March 27, 1905, at 6 o'clock in the forenoon, there and then to act on the following articles, viz: —

ARTICLE 1. To choose a Moderator.

ART. 2. To choose a Town Clerk, Treasurer, Collector of Taxes, Auditor, Highway Surveyor, three Selectmen, Treasurer of the Library Funds, Tree Warden, seven Constables, a Moderator, all for one year; one Member of School Committee, one Sinking Fund Commissioner, one Assessor, one Water Commissioner, one

Overseer of the Poor, two Trustees of the Public Library, one Member of the Board of Health, all for three years. Also to answer the following question: "Shall licenses for the sale of intoxicating liquors be granted in the Town of Wayland for the year ensuing?"

Names of candidates for the offices aforesaid, and the said question must appear upon the official ballot, and be voted for in accordance with chapter 11 of the Revised Laws of Massachusetts. For the purposes specified in this article, the polls will be opened immediately after the election of a Moderator, and will remain open continuously till 1.30 P. M., when they may be closed.

ART. 3. To choose all other necessary Town Officers, Agents, and Committees, and hear reports of Town Officers, Trustees, Agents and Committees, and act thereon.

ART. 4. To grant money for any and all necessary Town purposes, and order the same to be assessed, or do or act.

ART. 5. To authorize the Selectmen to consult counsel on important Town cases.

ART. 6. To see if the Town will accept the list of jurors as prepared by the Selectmen, or do or act.

ART. 7. To appropriate the money received from the County Treasurer for dog licenses.

ART. 8. To see if the Town will authorize its Treasurer to borrow money temporarily in anticipation of taxes for the municipal year ending February 28, 1906, and if so, how much.

ART. 9. To see if the Town will authorize the Selectmen to make a contract with the Edison Illuminating Company for lighting the streets of Cochituate for a term of five years, or do or act.

ART. 10. To see if the Town will authorize the Selectmen to install four additional street lights in Cochituate, or do or act.

ART. 11. To see if the Town will accept the provisions of Sections 21, 22 and 23, of Chapter 78 of the Revised Laws, providing for the election of Cemetery Commissioners, or do or act.

ART. 12. To see if the Town will grant a sum of money for the purpose of providing for the disposal of the surface water on Shawmut Avenue, in seasons of freshet, or take any action in relation thereto.

ART. 13. To see if the Town will instruct the Selectmen to require the Natick and Cochituate Street Railway Company to cause its tracks on West Plain Street to conform to the grade of the Street, and to put in suitable gutters, or drains, to take off the surface water, or do or act.

ART. 14. To see if the Town will vote to build a School house in Cochituate Village, and appoint a Committee to procure plans and estimates of the cost of constructing said School house, or do or act anything relative thereto.

ART. 15. To see if the Town will grant a sum of money to repair or rebuild Sherman's bridge (so-called), or do or act.

ART. 16. To see if the Town will grant a sum of money to repair Glen Street, or do or act.

ART. 17. To see if the Town will vote to install a heating apparatus in the Almshouse, grant money therefor, or do or act.

ART. 18. To see if the Town will accept the sum of three hundred dollars from the estate of Edward L. Moore to be safely invested, the income to be used for the care and improvement of the Lot and Monument of David Moore, in West [North] Cemetery.

ART. 19. To see if the Town will accept a bequest under the will of Abby M. Heard, deceased, late of Wayland.

And you are required to serve this warrant by posting a copy thereof attested by you at each of the Post Offices, and at the Town House, in said Town, seven days at least before the appointed time for holding said meeting. Hereof fail not, and make due return of this warrant, with your doings thereon, to the Town Clerk, on or before Saturday, March 25, current.

Given under our hands this tenth day of March in the year of our Lord, one thousand nine hundred and five.

ALBION F. PARMENTER,
WILLIAM S. LOVELL,
ALFRED T. DEAN,
Selectmen of Wayland.

REPORT OF SELECTMEN.

WAYLAND, February 28, 1905.

We have made the following appointments as required by law:

ENGINEERS OF FIRE DEPARTMENT. Edwin W. Marston, Charles E. Coakley, Frank J. Bigwood.

INSPECTOR OF ANIMALS. Thomas Bryant, V. S.

REGISTRAR OF VOTERS. Ezra G. Lemay.

AUCTIONEERS. George E. Sherman, Jacob Reeves, Alfred A. Carter.

PUBLIC WEIGHERS. Albert L. Adams, Nathaniel R. Gerald, Lorenzo K. Lovell, Ernest L. Grigson.

BURIAL AGENT FOR INDIGENT SOLDIERS. Damon L. Veasey.

JANITOR OF HALL. John E. Linnehan.

SEALER OF WEIGHTS AND MEASURES. Daniel Brackett.

SPECIAL POLICE OFFICERS. M. W. Hynes, I. W. Currier, A. B. Neal, Ralph Neal, A. S. Carson, A. A. Norris, James Linnehan, E. F. Lawrence, John E. Linnehan, W. R. Place, Robert Lamont. For July 4th to 6th, P. D. Gorman, F. X. Lupien, B. M. Bailey.

ELECTION OFFICERS. PRECINCT 1. Warden, E. F. Lee; Clerk, William Stearns; Inspectors, H. W. Parmenter, J. I. Bryden, C. H. Richardson, C. E. Quinn. PRECINCT 2. Warden, L. R. Gerald; Clerk, D. D. Griffin; Inspectors, A. A. Lamarine, William Lacoutre, F. P. Hannon, Bryant M. Bailey.

On June 25 the Town Farm barn was struck by lightning and damaged fifty dollars. The damage was repaired by Frank Haynes and paid for by the Insurance Company.

The contract for heating the Town Hall was awarded Fiske & Company, Natick. The work is not yet completed.

Town of Wayland.

The town lines have been perambulated between Weston and Wayland, the bound stones located and in good condition.

We recommend five additional street lights for Cochituate village.

Also we recommend making a five-year contract with the Edison Electric Illuminating Company of Boston for street lighting.

We have complied with the order of the District Police and have had a suitable fire escape placed at the rear of the Town Hall.

ALBION F. PARMENTER,
WILLIAM S. LOVELL,
ALFRED T. DEAN,
Selectmen of Wayland.

REPORT OF TRUSTEES OF PUBLIC LIBRARY.

During the year the Trustees have acknowledged the gifts to the Library of one hundred and forty-eight volumes from individuals. From Mrs. William F. Matchett the Library has received the cabinet in which has been placed the collection of ancient and historical books and manuscripts. These are mainly the gifts of citizens in past years, and in this collection the Library has a nucleus which the Trustees hope may be enlarged. With the present facilities for the safe preservation and display of books and documents historically valuable, the Trustees hope that others which are now perhaps more precariously preserved in private houses, may be added to the collection by gift or loan.

At the annual examination all books in the catalogue were accounted for.

The sum appropriated at the last Annual Town Meeting for repairs on the Library Building has been carefully expended. The decayed wood-work in the basement has been replaced, the floors of the entire building have been oiled, and repairs to plumbing made. In addition to this iron gratings have been placed on several of the basement windows in order that they may be safely opened for ventilation, which, with open blinds placed in the circular gabled windows, it is hoped will insure a freer circulation of air throughout the building.

To increase the use of the Library by the townspeople is an end to which the Trustees would strive. On the initiative of Mr. Joseph T. Corlew, Superintendent of Schools, an effort toward this has been made by the co-operation of the schools. A committee of the teachers has been appointed by the Superintendent to act in conjunction with the Trustees in the selection of books purchased for

juvenile reading; and a catalogue of this department is held by the teachers. It is proposed that they require the reading of books suggested by them as a part of the school-work, and that reports as to the results, as shown by compositions and discussions on books read, shall be furnished by the teachers to the Trustees.

In addition to the obvious benefits to be obtained by this in the school work, an important result aimed at is the teaching of the rising generation to use the Public Library of their Town, to acquire the habit of doing this, and to famlliarize them with its privileges.

In order to accommodate the school children the Trustees have caused the Library to be opened on Wednesdays at two o'clock instead of three o'clock as heretofore.

The Trustees would strongly recommend an appropriation by the Town for the establishment of a Reading Room at Cochituate with an attendant.

The Annual Report of the Librarian is submitted herewith.

ARTHUR G. BURNETT, *Chairman.*
ALFRED W. CUTTING, *Secretary.*
FRANCIS SHAW,
LESTER R. GERALD,
ALFRED A. CARTER,
CHARLES F. RICHARDSON,
Trustees.

LIBRARIAN'S REPORT.

ALFRED T. DEAN,
Water Commissioners, Wayland Water Works Sinking Fund.

REPORT OF SURVEYOR OF HIGHWAYS.

WAYLAND, February 28, 1905.

The amount appropriated for Highways and Bridges the past year was two thousand dollars ($2,000.00). There was also an unexpended balance of seventy-six dollars and ten cents ($76.10). Also the Excise Tax amounting to four hundred and forty-two dollars and forty-three cents ($442.43), making a total of two thousand five hundred and eighteen dollars and fifty-three cents ($2,518.53).

The total amount expended was two thousand three hundred and forty-four dollars and ninety-three cents ($2,344.93), leaving a balance of one hundred and seventy-three dollars and sixty cents ($173.60) unexpended on Highway account.

The snow bills for this year amount to four hundred and sixty-six dollars and eighty-nine cents ($466.89).

Itemized bills for above amounts are on file in the Selectmen's office.

MICHAEL W. HYNES,
Surveyor of Highways.

REPORT OF COMMITTEE TO REPAIR MAIN STREET, COCHITUATE.

At the town meeting held September 22, 1903, the following vote was passed, to wit. :—

That the Selectmen and James A. Bent and Charles W. Dean be, and they are hereby authorized to repair Main Street in Cochituate Village, in the manner which to them shall seem best; provided, that the expense of such repairs shall not exceed four thousand dollars. Your committee employed Mr. W. W. Wight to survey and submit a permanent grade of Main Street. After advertising for bids the contract for re-grading and building street, was let to Andrew Allen of Wellesley Hills, contract for concreting the sidewalks was also let to Mr. Allen. The summary of expenses is as follows :—

W. W. Wight, civil engineer	$150 00
Andrew Allen, re-building part of Main Street .	1,985 00
Andrew Allen, concreting sidewalks . . .	1,865 00
	$4,000 00

ALBION F. PARMENTER,

FINANCE COMMITTEE.

The Finance Committee respectfully submits the following and recommends that the same be appropriated and adopted, viz.: —

Incidental fund	$2,000 00
Support of poor	2,000 00
Abatement of taxes	300 00
School salaries and fuel	8,000 00
School supplies	600 00
Transportation of scholars	1,300 00
Repairs on school buildings	100 00
Superintendent of Schools	375 00
School incidentals	100 00
Overdrafts	881 58
Salaries	1,300 00
Electric lights	913 25
Fire department	700 00
Hydrants	384 00
Highways	2,000 00
Collector of taxes	350 00
Library	800 00
Library repairs	100 00
Lakeview Cemetery	50 00
North and Center cemeteries	50 00
Schoolhouse, loan	1,100 00
Highway, loan	400 00
Memorial Day, in addition to unexpended balance	25 00
Sinking fund	1,408 80
	$25,237 63

Finance Committee.

We recommend that the sum of four hundred and eighty dollars ($480.00) be transferred from water rates to pay interest on water bonds.

That the Selectmen be authorized to draw from the contingent fund such sums of money as may be necessary, not exceeding five hundred dollars ($500.00), for assisting needy soldiers and their families. That the selectmen be authorized to draw from the contingent fund a sum not exceeding three hundred and fifty dollars ($350.00) for the use of the Board of Health. That the sum of three thousand three hundred dollars ($3,300.00) be appropriated for interest on Town debt, to be taken from contingent fund. That the money for removing snow be drawn from contingent fund.

PAUL F. DRAPER, *Chairman.*
DANIEL D. GRIFFIN,
LOZENZO K. LOVELL,
EDWARD A. ATWOOD,
CLARENCE S. WILLIAMS, *Clerk.*

COPIES OF SECTIONS OF TWO WILLS

In Which the Town of Wayland Is Mentioned as Possible Beneficiary: —

EXTRACT FROM WILL OF MARSHALL RUSSELL.

"(9) I direct my said Trustees upon the death of Henry Marshall Russell, Edmund Russell, Mary Emma Reeves, Adell V. Barney, and Alden Hosmer, and the survivor of them, then and upon that event, to sell all the property then remaining in their hands as Trustees, and convert the same into cash, and pay over the same to the Town of Wayland, in the County of Middlesex in said Commonwealth, upon the condition that said Town of Wayland will accept the same in trust forever, to use the income only for the relief and aid of the deserving poor who are residents of said Town and of the Protestant faith. Said Town shall designate the money so received, and the same shall be always known, as the 'Russell Fund.'

"It is my will that there shall always be three Trustees during the continuance of the trust herein set forth until the funds herein given shall be paid over to the Town of Wayland."

(Chas. H. Stearns, and Albert L. Lincoln, of Brookline, and Everett H. Barney, of Springfield, Trustees.) (Full copy of this Will is on file with Treasurer's records.)

EXTRACT FROM WILL OF ABBIE M. HEARD.

"I further devise and bequeath to Abby M. Farwell, my house and all my land situated in the Town of Wayland, in the County of Middlesex, and Commonwealth of Massachusetts, to have and to hold, and to have the use and improvement thereof, during her life, provided that she keeps the house in good repair, and does not allow it to go to waste."

"To said Town of Wayland I devise and bequeath my house and land situated in said Wayland, subject to the rights of my niece, Abby M. Farwell, as above provided, and I hereby direct said

Town, as soon as a proper discretion allows, after said house and land shall come into its possession, either by the death of my said niece, Abby M. Farwell, or for failure to repair, that said house and land shall be sold, and said Town, and the Treasurer of said Town, are hereby empowered to give a good and sufficient deed, or deeds, conveying a title in fee, and the purchaser shall not be responsible for the application of the purchase money; and I direct that a Fund shall be formed out of the proceeds of said sale, which shall be known as the 'Sarah Webster Heard Fund,' which shall be used both principal and interest in the discretion of the Trustees of the Public Library of said Town of Wayland, for the purchase of books for said Library."

(William H. Brown, Executor.)

FRANK E. YEAGER,

Treasurer.

Wayland School Committee Reports

1904-5

ANNUAL REPORT

OF THE

School Committee

OF THE

Town of Wayland, Mass.

FOR THE

YEAR ENDING MARCH 1, 1905

PRINTED FOR THE SCHOOL COMMITTEE

1905

REPORT OF SCHOOL COMMITTEE.

To the Citizens of the Town of Wayland: —

We have the honor to report that the schools are in good condition, and that the teachers are doing their work in an able and conscientious manner.

A course of study has been adopted in the High Sehool, and it is intended to introduce a definite course in the Graded Schools. We think that the introduction of such a course will improve their standing and efficiency.

The last school year opened with but two changes in the force of teachers. Miss Mary A. Mulliken succeeded Miss Celina H. Lewis as teacher of the eighth and ninth grades at Wayland Centre, and Miss Agnes E. Boland succeeded Miss Ellen H. Bartlett as Supervisor of Music in the schools. Later in the year, we unfortunately lost the services of two teachers. Miss Damon resigned on account of sickness in her home, and Miss Cook resigned to accept a more lucrative position elsewhere.

The special teachers in stenography, typewriting, drawing and music have contributed their full share towards the efficiency of these branches of study.

We are pleased to notice the interest taken in school athletics, as we recognize the necessity of physical as well as intellectual development. We wish to thank Mr. Van

Namen and the other townsmen who have so liberally helped the school teams.

We wish to express our appreciation of the assistance of Mr. Francis Shaw in making the repairs on the building in Wayland Centre, and of his continued interest in our schools. We wish also to thank Miss L. Anna Dudley for her generous gift of pictures.

We take this occasion to thank Mr. Joseph T. Corlew for his zealous and untiring assistance in superintending the schools, and in promoting their interests and welfare.

We wish to lay emphasis on the fact that the co-operation of the parents with the teachers, superintendent and committee is necessary in order to maintain a high standard in our schools.

We especially desire to call to your attention the condition of the schoolhouse in Cochituate Village, and we earnestly recommend the immediate erection of a new building.

A more detailed statement in regard to the schools will be found in Mr. Corlew's report.

ISAAC DAMON,
HARRY E. CARSON,
EDWARD M. BENNETT.

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the School Committee of Wayland:

Gentlemen: — I have the honor to present my first annual report.

HIGH SCHOOL.

The High School began the Fall Term with the largest number in its history, viz.: seventy-four. One has entered since, making the total enrollment seventy-five. The attendance, although pretty good, is not what it ought to be. The teachers should not be held responsible for the progress of pupils who are irregular in attendance. At the beginning of the Spring Term, 1904, two teachers were elected to take the places made vacant by the resignations of Miss Franklin and Miss Keith. Miss Bertha G. Perkins, who has had charge of the English Department since that time, has done thorough and effective work, and there exists between teacher and pupils the most cordial relations. Miss Clara H. Williams, in the Science Department, has done thorough and conscientious work. Her motive has been not only to broaden the pupils' view, but also to have them work out for themselves the problems presented and draw their own conclusions. This department is, by the addition of much needed material and apparatus, very well equipped.

GRADES.

At the commencement of the Spring Term Miss Anna K. Sheriden took charge of the first grade in the Cochituate Grammar School. She has done excellent work, not only in her class work, but also exerting a strong, wholesome influence on the pupils.

Otherwise the present corps of teachers has been unbroken for almost two years.

In Wayland we have not been so fortunate, as three teachers have resigned since schools closed last June.

Miss Celina H. Lewis left to go to Waltham. Miss Lewis did excellent work in the eighth and ninth grades.

Miss Olive L. Cook, who taught the first and second grades for over two years, went to Beverly in November. She possessed rare qualities and was peculiarly adapted for the work in these grades.

In January, Miss Emily F. Damon, who had been a teacher at Wayland Centre for eight years, was obliged to resign. It was a distinct loss to our schools, for Miss Damon's work as a class teacher and disciplinarian was of the highest order.

The resignations of these teachers were accepted with regret by the committee.

Miss Mary A. Mulliken, in the eighth and ninth grades, Miss Frances S. Whiting, in the first and second grades, and Mrs. Wilcox, who has charge of Miss Damon's room, are doing exceedingly good work.

MUSIC AND DRAWING.

Miss Ellen H. Bartlett, who had for six years been Supervisor of Music, resigned to take charge of the music in Needham. Miss Agnes E. Boland was elected as her successor, and began her work in September last.

Miss Boland is a thoroughly qualified and enthusiastic supervisor and teacher. Since assuming her duties she has introduced needed changes, raised the standard, and infused new life into the work.

Miss Mary J. Stickney, Supervisor of Drawing for nearly three years, is still in charge of this very important branch. She is an artist, and like all true artists, she enthuses both teachers and pupils with a liking for her subject.

It can be said that our schools are progressing, that the work is better than last year, that our teachers are competent and enthusiastic, and are putting their best endeavors into their school

work. Under these conditions, the schools cannot fail to grow in usefulness.

I wish to thank the people, the committee and the teachers for the hearty support they have given me in every effort to better the schools.

Respectfully submitted,

JOSEPH T. CORLEW,

Superintendent.

REPORT OF THE SUPERVISOR OF MUSIC.

To the Superintendent:

I herewith submit my first report of the music in the public schools of Wayland.

A plan of work has been placed in the hands of the teachers each month. A great deal of drill work has been given in each grade, and a marked improvement is shown.

Much stress has been laid on individual work and a plan of this work is given to the teachers. Each pupil is expected to sing the exercise given him without any assistance. He is also expected to know all about the technical part of the exercise. Music is a study in which a child can easily throw the burden of the work on those who like it best. The good effect of this individual work is noticed in the class work. It also is a great aid in the training of attention and the power of application.

A feature of the sixth grade is the scale work. Each pupil can write the signatures of all major scales and build them from the stencil of the piano key-board. The seventh grade take one step farther. They find the relative minor scales from the major and can build all major and minor scales.

There is a great deal of talent in the High School, and we hope to present some very fine chorus work before the end of the year.

I wish to thank the committee and superintendent for their hearty support, and the teachers for their efficient work.

AGNES E. BOLAND,

Supervisor.

REPORT OF THE SUPERVISOR OF DRAWING.

MR. JOSEPH T. CORLEW, Superintendent of Schools:

MY DEAR SIR:—The plan of the work in drawing in the Wayland schools thus far has been similar to that of last year. Having had the schools the year previous, more can be accomplished in the different phases of training this present year, as a definite idea is known of what can be done by each class.

It is my aim to consider more thoroughly this spring, the subject of design. It is here that a child has an opportunity to make a practical application of what has been studied. It is very gratifying indeed to have boys and girls able to produce truthful representations in drawing and painting, but if by doing these things a child's taste is not refined, the subject that is called drawing in the schools may as well be omitted entirely. Blashfield, in his "Italian Cities" says: "Art did not mean the production of pictures and statues only; it meant a practical application of the knowledge of the beautiful to the needs of daily life." It is to "the needs of daily life" that this art training is applied.

Given a few good principles, that he knows to be true, a pupil learns that there is a "right and wrong" in all design, and as Ruskin says, "finds out the right," and we trust likes that, he learns the one great principle that governs all design — use, that every article from a kitchen utensil to a cathedral has its mission.

In designing and constructing simple ideas, this truth of "fitness to purpose" is more fully impressed on his mind.

In making a design for a sofa pillow top, the first thing considered is the use of the object. This will limit the material, the size and color, and most important, the design.

These are simple little truths, which if considered more in the construction of things, would give fewer inconsistencies in our daily life. There is one other motive in giving this work in design, it encourages the individual worker to create things for himself — to apply his designs to material. Thus, besides being a means in developing taste, it encourages hand labor.

As there is to be an exhibition in June of work done in the schools, no drawings have been selected to be reproduced for this report. The drawings exhibited will be selected from the different phases of work done during the entire school year, each child being represented.

I wish to extend my thanks to the superintendent and the committee for their support in my work, and to express my appreciation to the teachers for their efforts.

Respectfully submitted,

MARY J. STICKNEY.

February 1, 1905

APPENDIX.

SCHOOL CALENDAR, 1905-1906.

HIGH SCHOOL.

Fall term begins Tuesday, September 5, 1905. 15 weeks.
Fall term ends Friday, December 15, 1905.

VACATION.

Winter term begins Monday, January 1, 1906. 12 weeks.
Winter term ends Friday, March 23, 1906.

VACATION.

Spring term begins Monday, April 2, 1906. 13 weeks.
Spring term ends Friday, June 29, 1906.

PRIMARY AND GRAMMAR SCHOOLS.

Fall term begins Monday, September 11, 1905. 14 weeks.
Fall term ends Friday, December 15, 1905.

VACATION.

Winter term begins Monday, January 1, 1906. 12 weeks.
Winter term ends Friday, March 23, 1906.

VACATION.

Spring term begins Monday, April 2, 1906. 11 weeks.
Spring term ends Friday, June 15, 1906.

Holidays occur every Saturday; Labor Day; from noon of Wednesday preceding Thanksgiving until the following Monday, Washington's Birthday; Patriots' Day, and Memorial Day.

SCHOOL HOURS.

WAYLAND: 8.45 A. M. to 2.20 P. M. One-half hour intermission for lunch. High School, 8.45 A. M. to 1.20 P. M.; 10 minutes intermission for lunch.

COCHITUATE: 9 A. M. to 11.30 A. M.; 1 P. M. to 3.45 P. M.

LOKERVILLE: 9 A. M. to 11.30 A. M.; 1 P. M. to 3.45 P. M. Winter term, 9 A. M. to 2.30 P. M. One-half hour intermission for lunch.

GENERAL SUMMARY.

Population of town	2,303
Valuation of school-houses and lots	$31,000.00
Number of schools	13
Length of school year in weeks for primary and grammar departments	37
Length of school year in weeks for high school department	40
Number of regular teachers	15
Number of teachers employed during the year	19
Number of special teachers	2
Number of special teachers employed during the year,	2
Number of children in town between 5 and 15 years of age, according to school census of September, 1904	315
Number of children in town between 7 and 14 years of age, according to school census of September, 1904	244
Number of different pupils of all ages enrolled in all the schools during the year	403
Number of different pupils in all the schools under 5 years of age	3
Number of different pupils enrolled in all the schools between 5 and 15 years of age	338
Number of different pupils enrolled in all the schools between 7 and 14 years of age	240
Number of different pupils enrolled in all the schools over 15 years of age	70
Total average membership for the year	366.48
Total average attendance for the year	344.51
Per cent of attendance	94.005
